**WARRANT FOR  
ANNUAL TOWN MEETING  
1970**

Commonwealth of Massachusetts

Middlesex, ss.

To any Constable of the Town of Weston, Greeting:

In the name of the Commonwealth you are hereby required to notify and warn the voters of said Town, qualified to vote in elections and town affairs, to meet in the Cafeteria of the Weston Senior High School located on Wellesley Street in said Town on Saturday, the twenty-eighth day of March, 1970, at 8 o'clock a.m. to act on Article 1 of this warrant; and to meet in the auditorium of the Senior High School in said Town, and also in the gymnasium of the Senior High School if the number of voters in attendance shall exceed the capacity of the auditorium, on Monday, the thirtieth day of March, 1970, at 8 o'clock p.m. to act on the remaining articles of this warrant.

**Article 1.** To bring in their votes for the following town officers to be voted for on one ballot:

A moderator	For term of
One selectman	One year
One assessor	Three years
Two members of the school committee	Three years
One member of the school committee to fill vacancy	Three years
One library trustee	One year
One member of the board of health	Three years
One commissioner of trust funds	Three years
Three measurers of lumber	Three years
One water commissioner	One year
One member of the planning board	Three years
A tree warden	Five years
Two members of the recreation commission	One year
	Three years

And to give their votes Yes or No on the following question which will appear on the ballot:

Question No. 1: "Shall the Town, in addition to the payment of fifty per cent of a premium for contributory group life and health insurance for employees in the service of the Town and their dependents, pay a subsidiary or additional rate?"

The polls will be opened at 8 o'clock a.m. and may be closed at 6 o'clock p.m.

**Article 2.** To raise and appropriate such sums of money as may be necessary to defray the costs of government and other town charges for the current year; and to fix the salaries and compensation of elected officers of the Town for the current year.

**Article 3.** To authorize borrowing of money in anticipation of revenue and issuance and renewal or refunding of a note or notes therefor.

**Article 4.** To transfer money from the overlay reserve fund to the reserve fund.

**Article 5.** To appropriate money from available funds for the purpose of deduction by the assessors in determining the annual assessment of taxes in the current year.

**Article 6.** To appropriate for the support of the Public Library the dog license refund received in the current year and available money from State aid for the Public Library.

**Article 7.** To appropriate money from available funds in anticipation of state and county reimbursement for chapter 90 highway maintenance and construction.

**Article 8.** To appropriate money, to be provided by borrowing and/or by taxation and/or from other sources, for laying or relaying water mains, and to authorize the issuing of bonds or notes.

**Article 9.** To authorize acquisition by purchase, eminent domain, or gift, for public housing purposes a certain parcel of land in Weston which is bounded and described as follows:—

A parcel lying on the southwesterly side of Concord Road, northwest of the Boston Post Road, starting at the point of intersection of the southern boundary line of the Boston and Maine Railroad and the western boundary line of the easement west of Concord Road; thence south 16 degrees, 33 minutes, 50 seconds east two hundred twenty-five (225) feet; thence at right angles south 73 degrees, 26 minutes, 10 seconds west forty (40) feet; thence south 10 degrees, 26 minutes, 10 seconds west three hundred twenty-five (325) feet; thence at right angles south 19 degrees, 33 minutes, 55 seconds east two hundred five (205) feet; more or less, to the western boundary line of Concord Road (at a point six hundred ten (610) feet, more or less, along the western boundary line of the easement west of Concord Road from the point of beginning); thence southerly along said Concord Road one hundred five (105) feet, more or less; thence north 79 degrees, 33 minutes, 50 seconds west two hundred fifty (250) feet, more or less; thence south 11 degrees, 33 minutes, 50 seconds east six hundred seventy (670) feet, more or less; to the northern boundary line of the land now or formerly of S. D. Bush; thence with Bush's line south 88 degrees, 27 minutes, 40 seconds west three hundred fifteen (315) feet, more or less;

Thence north 1 degree, 44 minutes, 30 seconds west two hundred thirteen and 31/100 (213.31) feet; thence south 68 degrees, 46 minutes,

40 seconds west three hundred thirty-five and 20/100 (335.20) feet; thence north 12 degrees, 23 minutes, 20 seconds west two hundred six and 34/100 (206.34) feet; thence north 65 degrees, 22 minutes 00 seconds west two hundred twelve and 35/100 (212.35) feet; thence north 31 degrees, 18 minutes, 30 seconds east eighteen (18) feet, more or less; thence north 38 degrees, 54 minutes, 00 seconds west two hundred forty-six and 59/100 (246.59) feet; thence north 59 degrees, 19 minutes, 30 seconds west four hundred ninety-seven and 55/100 (497.55) feet to an iron pipe; thence continuing along the same line ten (10) feet to Cherry Brook; thence northerly along Cherry Brook two hundred ninety-five (295) feet, more or less, to the southern boundary line of the Boston and Maine Railroad; thence south 88 degrees, 34 minutes, 20 seconds east fifty-four and 53/100 (54.53) feet; thence continuing in an easterly direction along an arc with a radius of two thousand nine hundred fifty-four and 74/100 (2,954.74) feet, a distance of eight hundred fourteen and 37/100 (814.37) feet; thence north 75 degrees, 38 minutes, 10 seconds east six hundred seventy-seven and 29/100 (677.29) feet, more or less to the point of beginning or however otherwise the said parcel may be bounded or described, and that the selectmen be authorized to acquire said premises subject to such terms and conditions as they may approve — that the selectmen be authorized in the name and behalf of the Town to take any options and make any purchase and other contracts suitable to the acquisition thereof, and that for the use of the selectmen for the acquisition thereof the sum of \$150,000.00 be appropriated of which \$25,000.00 be appropriated from available revenue funds, and \$125,000.00 to be raised by borrowing inside the statutory debt limit, or otherwise as permitted by law, to which end the town treasurer, with the approval of the selectmen be authorized to prepare, issue and sell bonds or notes of the Town at one time or from time to time, and to determine in conformity to law the period of the loan or loans, all particulars as to the form, issue, and sale of said bonds, or notes, their annual maturities, and the rate and times of payment of interest on them, or to take any other action relative thereto.

**Article 10.** To appropriate funds for the use of the Board of Selectmen acting itself or through a committee to be appointed by it, to be used for studying and making recommendations to the Town concerning the housing needs and possibilities of the town including, but not limited to, the employment of consultants, engineers and attorneys; the compilation of a housing census; the survey of and investigation of land suitable for multiple housing; consultation with the Planning Board and other Town officers and committees; the recommendation of zoning changes related to multiple housing to the Planning Board; consultation with private and/or public persons, organizations, churches, non-profit corporations, the Commonwealth of Massachusetts and the United States of America with a view to ascertaining financial and organizational means to carry out any recommendations contemplated to be made; the consideration of a

housing authority for the Town; such other studies, investigations and consultations as seem desirable or necessary to the Board of Selectmen or its committee to effect the purposes of this Article.

**Article 11.** To accept the layout of Gail Road as a public town way made by and described in an order of the selectmen adopted on March 17, 1970, on file in the office of the town clerk.

**Article 12.** To accept an alteration of Brown Street made by and described in an order of the selectmen adopted on March 17, 1970, on file in the office of the town clerk.

**Article 13.** To authorize the sale and conveyance of a parcel of land of the Town containing 70,299 square feet more or less, situated on the northerly side of Brown Street between land of Charles J. Paine Estate and westerly line of Wellesley Street and shown on "Plan of land in Weston, Massachusetts" dated March 9, 1970, prepared by Kenneth B. Oates, Town Engineer; and to specify the minimum amount to be paid therefor.

**Article 14.** To accept either or both of layouts of Wood Ridge Road and Wood Ridge Circle as public town ways made by and described in orders of the selectmen adopted on March 17, 1970, on file in the office of the town clerk.

**Article 15.** To appropriate money for the use of the assessors for an expert appraisal of taxable property to be contracted for by the assessors under General Laws, chapter 40, section 4, as amended.

**Article 16.** To establish a special committee, to be appointed by the moderator, to investigate and study the outdoor swimming facilities of the Town and to appropriate money for the use and purposes of such committee.

**Article 17.** To appropriate additional funds for the use of the selectmen for a study of vehicular and pedestrian traffic.

**Article 18.** To amend the by-laws of the Town by adding to Article II thereof a new section to be numbered 13, as follows:

**Section 13.** In the event specific Town authorization is not required by law, appropriate boards, committees and officers of the Town are authorized to enter into contracts in behalf of the Town with the Commonwealth and the United States of America and with cities, towns, counties and districts of the Commonwealth and other public bodies or with their agents, committees or officers, or any or all of them, which contracts are in exercise of the Town's powers, and call for services, activities or undertakings the Town is authorized

by law to perform; **provided, however,** that appropriations for expenditures to be made under such contracts have been duly authorized by the Town. The term of contracts entered into under the authority of this section shall not exceed three years unless a longer or shorter period of time is specifically authorized by law.

**Article 19.** To establish a committee, to be appointed by the moderator to erect and construct a service garage for school buses, and an additional garage or an addition to the garages for highway vehicles; to perform such other responsibilities in connection with the construction of Town buildings as may from time to time be voted by the Town; and to appropriate money, to be provided by borrowing and/or taxation and/or from other sources, for the use and purposes of the committee.

**Article 20.** To authorize the Town to enter into contracts with the City of Waltham for participation in a youth resources board and with the appropriate department of the United States and of the Commonwealth for participation in the TOPICS program (Traffic Operations Program To Increase Capacity and Safety); and to appropriate money therefor.

And you are to serve this warrant by posting three attested copies thereof, at the Town Hall, at the Kendal Green railroad station, and on the town bulletin board at the north entrance of the Weston High School on Wellesley Street, seven days at least before the time appointed for said meeting.

Hereof fail not and make due return of this warrant with your doings thereon to the selectmen at the time and place of said meeting.

Given under our hands March 17, 1970.

HERMAN KOESTER, JR.  
GEORGE M. LOVEJOY, JR.  
THOMAS W. UNDERHILL

Selectmen of the Town of Weston

## REPORT OF THE BOARD OF SELECTMEN

### 1970 BUDGET AND TAX RATE

The budget which the Board of Selectmen will recommend under the provisions of Article II, Section 5, of the By-Laws of the Town provides for estimated total expenditures of \$5,538,531.46, an increase of \$669,608.69, or 13.8% over the 1969 budget. To the budget must be added an amount of \$1,357,358.65 to cover such payments as principal and interest on debt, State and County charges, and appropriations under special articles in the warrant which must be raised by the Town from revenue. The combined total to be raised is \$6,895,890.11, an increase of \$736,048, or 11.9% over the comparable figures for 1969.

For the first time in a number of years we have available before the annual meeting the so-called "Cherry Sheet" which provides the estimates of major State and County assessments and distributions of state shared taxes. As the result of 1969 legislation the formulas for distribution of state shared taxes have been radically altered. The result of the changes is a reduction of \$238,324 in the amounts to be received from state shared taxes in 1970. This reduction in state aid will have to be made up from local taxes in 1970, thus adding to the increased total of budget and other charges set forth above.

Although the Board of Assessors has the responsibility for fixing the final tax rate it has been the practice of the Board of Selectmen to indicate estimates of the tax rate which might result from the budget recommendations and other charges and credits when the uncertainties of State and County charges and credits were not overwhelming as they were in 1969.

With the information available for 1970 it is estimated that the 1970 tax rate might be \$50.00, an increase of \$7.20 over the 1969 rate of \$42.80 per thousand dollars of valuation.

The following table shows, by principal classifications, the amounts spent in 1969, the budget amounts for 1969, and the amounts recommended, or in the case of debt service and State and County charges the amounts required, or estimated to be required in 1970. (Where an amount exceeds the corresponding budget amount of 1969, such expenditures were made from appropriations voted from sources which did not affect the tax rate in 1969 and, hence, were not in the 1969 budget figures.)

	1969 Spent	1969 Budget	1970 Budget
General Government	159,246	160,770	183,344
Protection of Persons and Property	654,048	669,543	752,724
Health and Sanitation	26,372	27,881	34,755
Highways and Bridges	330,366	338,890	350,440
Public Welfare (Veterans' Benefits)	4,066	4,200	8,500
Libraries	88,886	86,138	87,252
Recreation and Parks	43,257	51,295	64,919
Water Department	94,259	110,492	108,935
Cemeteries	34,621	36,660	50,930
Retirement Fund,			
Insurance and Unclassified	173,593	203,196	247,210
Debt Service exclusive of			
Schools	170,941	180,942	78,439
Total other than schools	<u>1,779,655</u>	<u>1,870,007</u>	<u>1,967,448</u>
Schools	3,099,560	3,202,144	3,649,522
School Debt Service	815,655	815,655	862,795
Total Schools	<u>3,915,215</u>	<u>4,017,799</u>	<u>4,512,317</u>
Separate articles in the warrant	—	—	60,500
Total Town Services	<u>5,694,870</u>	<u>5,887,806</u>	<u>6,540,265</u>
State Charges	99,593	97,505	135,196
County Charges	190,182	174,531	220,429
	<u>5,984,645</u>	<u>6,159,842</u>	<u>6,895,890</u>

Faced with the prospect of increased state and county charges and decreased distribution of state aid, the Selectmen and Finance Committee, in their separate and joint reviews of budget requests have continued their efforts to eliminate or defer costs where such action would not be detrimental to established programs or to the long run best interest of the Town. Comments on the budget which follow will indicate that in a few cases personnel has been added to meet the growing needs of the Town and to carry out new programs.

### Rates of Pay and Employee Benefits

Considerable progress has been made in reaching collective bargaining agreements with the representatives of employees' Associations, but the negotiations are not concluded at this time. We are confident that the discussions provide a sound basis for reasonably accurate budget recommendations as set forth above.

Principal adjustments will be in base pay rates to continue our policy of maintaining the Town's relative position in competition with private and other public employers in order to retain qualified employees and attract suitable replacements and additional employees as required.

Certain changes in vacation and sick leave benefits are contemplated which will benefit long service employees. A question appears on the ballot for the Town election which may affect employee benefits in 1971. See separate section on Ballot Question below.

Increased costs of materials and services, resulting in small part from growth of Town services, but in larger part from general price increases, are reflected throughout the budget. Our comments on significant items in the budget follow:

### **General Government**

Provision has been made for expenses of a Town Drug Committee to be appointed by the Selectmen (\$1,000). An informally organized committee under the sponsorship of the Board of Health has worked on this subject for the past year or more. The need for coordinated study and action has been highlighted by reports of this committee, the School Department and the Police Department. Funds for consultants if needed would be available through the Selectmen from the appropriation for Consulting and Professional Services.

The sum of \$6,000 has been budgeted for an Administrative Assistant to be employed after July 1, 1970, in the office of Executive Secretary of the Board of Selectmen. More detailed comments on this recommendation are included hereafter.

Other increases in General Government appropriation relate to election expenses (State Primary and State Election), and reprinting of zoning by-laws and Planning Board Rules and Regulations.

### **Protection of Persons and Property**

In the Police Department two additional patrolmen are included in the budget to increase coverage in areas of juvenile investigations, selective traffic enforcement, safety programs and court prosecution by a re-allocation of duties assigned to various personnel of the department. A portion of the increased man-hours available will reduce the overtime at premium rates of pay necessary to cover shifts during vacations of permanent personnel.

In addition to the replacement of patrol cars provision is included in the Equipment and Apparatus account for two major acquisitions the costs of which are partially or totally reimbursable from federal grants. Replacement of the entire radio communications system is eligible for a federal grant of one-half the cost. Already included in the appropriation balance for replacement of certain mobile units is a sum equal to one-half of the estimated cost. An additional 50% is included in the 1970 budget (\$5,800) to be expended only if the Federal grant request is approved. For a speed measuring device and related portable radio equipment the sum of \$2,749.00 is budgeted subject to approval of a request for full reimbursement of the cost.

Tree Warden — Expenses provides for anticipated increases in contract rates for the year 1970-71 related to tree trimming, tree repairs and removal of dead or hazardous trees.

A small dollar increase in Town Forest Expenses is provided to permit continued brush cutting as well as removal of diseased elm trees identified during 1969.

#### **Health and Sanitation**

Support of the Mental Health program for a full year accounts for most of the increase in this category. This new program instituted last year was funded for only the last six months of 1969. The total for 1970 is \$10,000.

An increase of \$500 in the appropriation for Mosquito Control is provided for increased labor rates.

#### **Highways and Bridges**

Provision is made in the Equipment Account for purchase of replacements for two trucks, one sandspreader body, and a catch basin cleaner bucket and a new air compressor for use in the repair shop at the Highway Department garage.

#### **Public Welfare (Veterans Benefits)**

The increase budgeted is based on known commitments for Veterans Benefits cases, one permanent, and two temporary. Major increases in state approved rates for nursing home care became effective in 1969 and account for the major portion of the increased appropriation required.

#### **Recreation**

Recreation Commission—Salaries includes provision (\$12,090) for personnel to operate the new indoor swimming pool at the Weston Junior High School for 10 weeks during the summer and for evening and week-end use during the school year when the facilities are not in use for the school physical education and athletic program.

Included in Recreation Commission—Expenses is an item for construction on town land of a gravel access road and parking area at the end of Gail Road to serve the Jennings playfield.

Park Department—Salaries and Expenses includes provision for increased part-time help to maintain Parks during the growing season.

#### **Retirement Fund, Insurance and Unclassified**

Provision is made for painting the exterior of the Town Owned House at 396 Boston Post Road, behind the Weston Fire Headquarters.

Insurance appropriations are substantially increased (\$12,325) in several categories. A new retrospective rating plan, which should produce substantial savings when in operation, requires initial premiums (paid quarterly in 1970) higher than those of previous years. Provided that our experience continues as in recent years a substantial return dividend in 1971 will serve to reduce costs. Motor Vehicle liability premiums are increased for the purpose of increasing limits of coverage for bodily injury liability protection to employees and the Town. Statutory limitations on the amount of coverage municipalities could provide were removed in 1969 by legislative action. Major rate increases occurred during 1969 and are incorporated in this appropriation for liability insurance on the Town's motor vehicles.

Group life, accident and health insurance costs are increased

(\$5,400) as the result of slightly higher rates effective since December 1969 and by increased employee participation in the group plan.

The Contributory Retirement Fund appropriation has increased by \$16,540 over the total appropriated in 1969. This is the amount certified by the Middlesex County Retirement System as due for 1970.

Provision is made for addition of \$15,000.00 to the Conservation Fund which will restore it to the approximate balance available in 1969 before purchase of 10 acres for the sum of \$15,262.

A new item is provided for minor expenses (\$100) of the Weston War Memorial Educational Fund Committee which administers the scholarship grants from the income of this Town trust fund.

#### **Water Department**

Included in Water Department — Expenses is provision for maintenance work on the Doublet Hill standpipe (\$6,000). This work consists of sandblasting the interior of the tank to remove all former coatings and application of new plastic type coating which is expected to extend substantially the length of life of this protection to the steel tank.

#### **Cemetery Department**

Provision for replacement of a tractor with backhoe and front end loader attachments (\$8,200) is included in the Equipment account along with funds for replacement of a three-gang mower unit (\$2,250). In 1969 the used tractor-backhoe of the Water Department was transferred to the Cemetery Department; continued use of this equipment is impossible until expensive repairs and replacement of components are made. Such expenditures on a unit which has received hard use in earlier years by the Water Department and the prospect that high maintenance costs would continue appear to justify the proposed replacement.

#### **Schools**

The tentative School budget provides an increase of \$447,378 over 1969. Of this total \$365,390 is attributable to salaries, \$48,566 to operating expenses and \$33,422 to capital outlay and special appropriations. Included in the last figure is a non-recurring item of \$17,000 for repairs to the Country School (for replacement of the roof over the bus loading platform and repairs to the exterior walls damaged when the original structure collapsed in 1969 under the weight of heavy snow and rain).

#### **BALLOT QUESTION**

A question will appear on the ballot for election of town officers relative to group life and health insurance. The question is phrased as required by General Laws, Chapter 32B, Section 7a, and may well appear confusing. At this time the Town contributes one-half of the total premium for group life and blanket general hospital, medical and surgical insurance for town employees and the employee contributes one-half of the premium (by payroll deduction). An affirmative vote on the question appearing on the 1970 ballot would authorize, but not

require, the Town to negotiate for such group insurance on a basis where the Town's contribution to the total cost might be higher than 50%. Under this statute the Town would be prohibited from paying all of the cost; the employee must still contribute his share.

The Selectmen recommend a "Yes" vote on this question. If approved no action is contemplated to change the present equal division of the premium in 1970. The matter of increasing the Town's participation in the total cost would become a matter for determination in connection with rates of pay and fringe benefits for employees in 1971.

### SEPARATE ARTICLES

Article 9 has been inserted on petition of the requisite number of registered voters for inclusion in the warrant for the annual town meeting. The petition was filed late in November 1969.

Under article 10 an appropriation of \$2,000 will be requested for use of the Selectmen's committee on housing needs and possibilities about which we comment more fully below.

Article 15 provides for consideration of an appropriation for use of the Board of Assessors for an expert appraisal of taxable property. The amount recommended by the Assessors under this article is \$34,000.

The Recreation Commission will ask under Article 16 establishment of a special committee to study the outdoor swimming facilities of the Town and an appropriation of \$6,000 for the use and purposes of the committee. This study is prompted by the need to modify the Town's Memorial Pool to clarify the water to meet safety standards of the Department of Public Health and to determine what alternatives are feasible to achieve continued availability of an outdoor swimming facility.

Under Article 17 an appropriation of \$2,500 will be requested for use of the Selectmen and the Committee to Study the Safety and Flow of Pedestrian and Vehicular Traffic. This will supplement an earlier appropriation and permit preliminary investigation of the possibility of extending a sidewalk in Wellesley Street from Chestnut Street to the vicinity of Newton Street.

Article 19 provides for appointment of a committee tentively designated as town building committee to erect and construct a service garage for school buses, and an additional garage or an addition to the garage for highway vehicles, and "to perform such other responsibilities in construction of Town buildings as may from time to time be voted by the Town." It is the recommendation of the Finance Committee that this committee be created with a view to serving as a continuing committee to provide a source of experienced and specially qualified advice to any town department considering a new building project and to study and execute such a project if the Town meeting votes to assign such responsibility to this new committee. For the specific garages now contemplated it is anticipated that \$10,000 will be requested from 1970 taxation, the balance to be raised by borrowing or from available funds.

The tax rate in recent years has shown a rising trend which will continue, unless ways can be found to increase the tax base without an offsetting increase in expenses.

Salaries constitute approximately 70 per cent of the total budget. The Town Officers, especially the School Committee, have a tightrope to walk in holding the line against unwarranted increases in staff, basic compensation and fringe benefits, while at the same time providing the town with the desired quality of services. Collective bargaining has to some extent complicated the problem because of the difficulty in coordinating the problems of each department. A town Personnel Board is one possibility for consideration.

Increase of the tax base depends on periodic reassessments—one to be made shortly—and extension of the base by buildings which contribute more in taxes than the expense of serving them and their occupants. At an appropriate time after construction, the Blake-Fitzgerald office buildings and the Willis apartments should be reviewed in the light of experience to determine whether further projects of the same type would reduce property taxes without adverse effect on the town.

Fundamental to the position of Weston as a fine residential community is past land use policy. Similarly Weston of the future will be largely determined by enlightened guidance of land use. Land use decisions involve not only determination of Town policy but, increasingly, sensitivity to metropolitan and regional responsibilities. The Town's large lot zoning and open space make it attractive to those searching for medical, school, stadium, or other sites requiring a large area close to both the core city and major highways. Weston must be prepared to encourage appropriate users and discourage those inconsistent with its land use policy.

Currently a great deal of attention is being directed to low and moderate income housing. The 1969 legislature, in a bill more significant for its precedent shattering entry into the zoning arena than its content, provided relief from local zoning, building and other codes if such codes are determined to be an unreasonable impediment to the development of new low and moderate income housing. A town committee ably led by the Reverend Mr. Donald B. Morris has been considering problems of housing for the elderly and housing for town employees. Since the formation of this committee in 1965 the scope of multiple housing consideration has substantially broadened and the Board of Selectmen feel a reorganized committee with a broader charge would be appropriate. To this end an article will be presented at the annual town meeting suggesting the establishment of a standing committee on housing to inventory community attitudes and needs regarding multiple housing, explore establishment of a local housing authority, inventory various state and federal assistance programs, and advise the town as to multiple residence land use.

Housing is not the only area where there are regional implications and pressures. There is strength in regional association to deal

with various problems. The Town of Lincoln recently took the lead in forming an association of towns concerned with the so-called middle belt road recommended in the master highway plan of the Department of Public Works. Technical and planning assistance was promptly offered by the Metropolitan Area Planning Council.

It was soon discovered by the towns that they had many more things to discuss than highways. It is the hope of your selectmen that this activity will increase such that regional approaches to all town services may be explored. This may be a key to the control of spiraling payroll and other costs.

## VEHICULAR AND PEDESTRIAN TRAFFIC

In the course of the past year notable progress has been made in implementing the plans for sidewalks in appropriate areas in the town. The sidewalk in Wellesley Street extending from the Wellesley line to the high school entrance has been completed, providing a safe and attractive solution to pedestrian travel in that area. Currently, plans are completed to continue the sidewalk to South Avenue where it will join the walk now being built in conjunction with the reconstruction of Wellesley Street from South Avenue to Regis College. Plans call for further extension to Chestnut Street, and investigation of the difficult problem of that final step of carrying the sidewalk on to School Street has started.

Late last fall work began on the Conant Road project and was only halted by winter weather conditions. By early spring this project, to the extent currently planned, will be completed. The Committee on the Safety and Flow of Traffic continues its extensive study and planning, and will continue bringing its recommendations before the Town for action. In addition to the reconstruction of a section of Wellesley Street, the straightening of Highland Street between Chestnut Street and Love Lane, which is being handled by our highway department, is well under way. Planning is in progress to provide some curve modification on Church Street between Webster Road and Kendal Green railroad station and preliminary study is being given to the layout of a new road section which might eventually run from Chestnut Street to the Route 20 by-pass.

Again, recognizing the lack of availability of additional Federal or State funds, the Selectmen for the fifth year are recommending that a modest amount of our own tax revenue be set aside for needed highway improvement.

A serious traffic flow condition, aggravated by the rebuilding of West Street in Waltham, has developed on Lexington Street, and the Selectmen are studying the situation in all its aspects to determine what realistic steps might be taken for improvement.

Requirements are quite well established for the additional garaging facility needed at the Highway Department. This will involve the building of a five bay addition to accommodate our additional highway equipment, and to provide two bays of space for the use of the Park and Cemetery Department. At the same time, some

modification will be made to accommodate the needs of our personnel for improved sanitary and lunch room facilities. It is expected that this matter will come before the Town at the annual town meeting for appropriate action.

### WASTE DISPOSAL

Certainly one of the most complex problems facing the Town is the matter of planning a proper sewage disposal system, principally for the business center. The moderator appointed Sewer Committee, supplemented by the efforts of the Board of Selectmen, Finance Committee, and professional consultants, has continued struggling with all the ramifications of this problem, in order to answer the many questions involved in considering either a local waste disposal system or, alternatively, a tie-in with the Metropolitan District Sewerage System.

The problems of engineering have been almost completely resolved, and construction and operating costs estimated as accurately as possible; and now the immediate concern is to establish a procedure for charging users of the proposed system for its usage, as well as proportioning a fair share of construction cost to each. In this area equitable formulas must be developed to protect the interests of the individual private subscriber and the Town itself. The same formulas must apply to a large potential user such as Regis College, and be a basis for use in the case of any other potential users whose needs must be considered in the predictable future. It must be stated, in review, that a local plant will satisfy only the requirements of the town center and central school system, while the inclusion of Regis College or any other major user, would presuppose M.D.C. tie-in. As soon as the financial analysis is completed a special Town Meeting will be called by the Selectmen, so that the Town may take appropriate action.

The sanitary land fill system which has been in operation at the dump for the past year has been quite effective, and it is evident that it should meet our requirement for several years to come. This minimizes the pressure which has been on us to find an immediate long range solution, either alone or in association with other communities, and allows us reasonable time to study the technological developments which have been slowly coming to the fore, as this disposal problem gets more and more universally critical. Further, the practical and financial part taken by State or Federal Governments towards the solution of waste disposal problems, will have a definite effect on what our next step may be.

The third problem of waste disposal concerning us is that of air pollution, and there are several areas which the Town is working to resolve. Brush has been burned at the dump with resultant air contamination; other means of disposal of this material will have to be found. Further, the heavy oils that are used to fire the boilers in our school buildings, do at times create additional pollution and the matter of switching during 1970 to fuel which will comply with new anticipated standards to minimize such air pollution is being

considered. The Selectmen realize their obligation to do everything possible to alleviate the air pollution condition and caution that restriction will probably have to be made on any sources of contamination evident within the town. This may well even extend to the problems developed by the simple burning of leaves and brush on our private properties.

### **TOWN HALL OFFICES**

Work on the expansion of office space in the Town Hall is well under way; the entire first floor area will soon be devoted to the conduct of the Town's business. This remodeling will certainly provide for more efficient operation and allow reasonable space in which our operating personnel may work. Unfortunately, the utilization of this entire area, eliminates our traditional voting location for Precinct 1 in the Town Hall, and possible substitute sites are now being studied.

The demands upon the Town's administration have been increasing at a substantial rate, and the work of the Selectmen's office has been hampered by almost unreasonable demands. In order that the Selectmen, themselves, may devote their energy towards more effective administration and leadership, and in order that the executive secretary may be relieved of a great deal of routine detail, thus allowing him more time for concentration on more critical matters, the Selectmen are recommending in their budget that a well qualified assistant to the Executive Secretary be employed as soon as possible. Further aid to Town administration would be increased use of the Town's excellent "people resources". To this end we are distributing with the town report, a questionnaire in order to inventory skills in the Town and solicit interest in serving the town. We hope to make increased use of committees responsible to the selectmen to deal with specific problems. Our very excellent and productive traffic committee has proved to us that this approach works well.

### **TOWN CENTER**

The Board of Selectmen and the Planning Board continue to work towards implementation of the 1965 Town Center recommendations. Priority has been given to providing for a buffer between the Town Center and the Boston Post Road By-pass and at the same time guaranteeing availability of land for a possible future connection between Center Street and Colpitts Road. At the March 25, 1968 annual town meeting, it was voted to authorize the selectmen to acquire land for these purposes. Regular negotiations with the land owners have taken place since and it is anticipated by the time of the 1970 annual town meeting the land will have been acquired. The Board hopes that this will be only the first of a series of steps to provide a well planned cohesive Town Center. The Town continues to own land behind the fire station and adjacent to the Triple A parking lot, the future use of which should be further considered. The acquisition of the buffer land will permit further consideration of the proper permanent location for Center Street. Later the solution

to the Town sewage disposal problem will allow Town action on the proposed new central fire-police facility which in turn will dictate the continuance or disposition of the existing central fire facility. All of these are currently unpredictable variables in town center planning.

It is the hope of the Selectmen that the provision of proper facilities for the police department will follow rapidly a resolution of the sewerage problem.

Note 1. Accounts indicated by † are continuing appropriations, the balance of which shall be carried forward to the next fiscal year. In cases where a balance is carried forward without this designation, the appropriation has been encumbered for the payment of liabilities incurred in the preceding year.

Note 2. The word "Receipts" as used above indicates sources of funds for expenditures which are available and need not be raised by taxation, such as: Surplus and Dog Tax Refund.

The word "Transfers" as used above indicates amounts made available by the Finance Committee from the Reserve Fund for unforeseen and extraordinary expenditures.

## REPORT OF THE FINANCE COMMITTEE

The tax rate in Weston, as in other communities, is going to increase over the foreseeable future between 10% and 20% per year. The increase in 1968 was 22.8% and 10.3% in 1969. While the 1970 rate has not been established it is expected to rise approximately 17%. Almost half of the increase is due to a net decrease in state aid of \$321,000. The increase in the 1970 operating budget of \$670,000 compares with increases of \$590,000 in 1969 and \$567,000 in 1968.

The added expenditures in the operating budget this year, as in previous years, are primarily accounted for by increases in wages and salaries which represent 75% of this budget and 63% of total town expenditures. 69.1% of the \$670,000 increase is due to increased salaries of present personnel, 9.7% is due to salaries of additional personnel, 12.3% is increased operating expenses of the schools and the balance of 8.9% is increased operating expenses of the town. Most attention is focused on the increase of personnel, the most controllable factor in our rising costs. This year it is anticipated that 5 school teachers will be added to the staff. These are required to maintain the current pupil-teacher ratio with the anticipated increase of 65 students. Two additional patrolmen have been added to the Police Department to provide additional staffing in the juvenile area and to decrease the overtime costs imposed upon the town by the state legislature in 1969. Both Schools and Recreation Commission operating budgets are up this year due to opening of the new junior high school and the swimming pool. Budgets will rise again next year when the old junior high school is returned to town use for a full year as an elementary school.

School debt service went up this year due to the remodeling of the old junior high school. Future capital items include the proposed sewerage system and central fire and police facilities. As reported in the special town meeting of December 1969 it is anticipated that the area zoned for apartments will provide more net revenue to the town than single family development. 1971 may see a favorable effect on the tax rate from development of both the apartments and the office park near the Turnpike entrance.

The Finance Committee continues its efforts to see that the town receives full value for the dollars expended. Inflation pressures and a growing town now make it difficult to stabilize the tax rate, but the Finance Committee will continue working to control increasing costs while maintaining an appropriate cost of services for the community. In-depth studies of various town functions are underway to assist the Selectmen in planning for future town needs and expenditures.

## REPORT OF AUDIT OF MUNICIPAL ACCOUNTS THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Bureau of Accounts

State Office Building, Government Center

100 Cambridge Street, Boston 02202

January 22, 1970

To the Board of Selectmen  
Mr. Herman Koester, Jr., Chairman  
Weston, Massachusetts  
Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Weston for the period from September 20, 1967 to August 27, 1969, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Chief of Bureau.

Very truly yours,  
Arthur H. MacKinnon  
Director of Accounts

A copy of this report may be inspected at the Office of Selectmen, Town Hall, Weston.

Your Commissioners urge residents of Weston to consider bequests, large or small, to the Town.

## REPORT OF THE SELECTMEN'S COMMITTEE ON THE SAFETY AND FLOW OF TRAFFIC

The Traffic Safety Committee has continued to meet once or twice a month during its second year of existence in order to complete its survey of the existing traffic and pedestrian needs of the town and to translate these needs into a short and long term program of improvements.

The firm of Wilbur Smith and Associates was retained in January, 1969 to conduct a study of Weston roads, conditions and traffic problems for the next 25 years, in order to help this committee formulate its recommendations to the selectmen for the future traffic needs of the town. The preliminary report in June, 1969, emphasized inadequately planned intersections at main roads during peak traffic, need for more turnarounds for school buses, and need for improved visibility on internal roads by the removal of brush, trees, and obstructing signs. The final report is due in early 1970 and will include data on rush hour traffic count, turning movements at intersections, and the location and definition of problem areas on a priority basis.

The construction of the Wellesley Street sidewalk from the southerly driveway of the High School to the Wellesley town line was begun in March, 1969 and completed in July, 1969. The committee is pleased with the walk's aesthetic appearance and its conformity with the country aspect of Weston. Plans are being prepared for a continuation of this sidewalk to South Avenue and beyond to Newton Street.

The 1969 Annual Town Meeting voted to accept the layout, fund, and construct a footpath along Conant Road from Church Street to a point 800 feet beyond the railroad bridge. With the retirement of Town Engineer Mr. Charles H. Stimpson, Jr. the committee felt that professional help was needed for the footpath design, specifications, and supervision of construction. The landscape architectural firm of Moriece and Gary was selected in June, 1969. The construction of the footpath began in December and will be completed in the spring of 1970.

The Traffic Safety Committee will utilize the Wilbur Smith report on present and projected traffic needs of Weston in making its recommendation in 1970 to the selectmen for future traffic and pedestrian planning. The committee can now turn its attention in 1970 to other aspects of traffic safety. Some of these are: street lighting, crosswalks, identification of obstructions to vehicular or pedestrian visibility, review of speed laws, speed zones, snow plowing and sanding practices, accident reporting and analysis procedures, and safety education.

As the Traffic Safety Committee works out its recommendations and solutions for Weston's growing traffic needs, it will use as an important philosophical point of departure the town's wish to keep Weston safe for its citizens and as pleasingly rural as is possible in this age of increasing congestion.

## REPORT OF THE BOARD OF REGISTRARS OF VOTERS

During 1969 one hundred and fourteen (114) persons were registered and added to the register of voters in Weston. Four hundred twenty-one persons (421) were dropped from the register. On December 31, 1969 there were 5,407 registered voters.

## REPORT OF THE PLANNING BOARD

During the year 1969 the Weston Planning Board held 44 regular meetings, one public hearing respecting a proposal to amend the zoning by-law and 9 public hearings respecting proposed subdivisions. Nine subdivisions containing 122 lots and 17,005 feet of road were approved during the year, comprising the following streets: Asbury Lane, Aspen Road, Blake Road, Cabin Road, Cherry Brook Road (Extension) Driftwood Lane, Greenridge Road, Juniper Road, Orchard Avenue, Rockport Road, Rocky Ledge Road, Sylvan Lane, Tamarack Road, Terrace Road, Walnut Road (Extension), and Wit's End. Twenty-five plans, including those which created 13 new lots, were considered and endorsed "approval under the subdivision control law not required."

One of the Board's major concerns during the year was consideration of multiple dwelling zoning proposed by the Willis family. The Board met on numerous occasions with the developers, their representatives and town counsel in attempts to fashion an amendment to the zoning by-law which would allow multiple dwellings while maintaining the integrity of the present zoning structure. Following a public hearing the Board announced its intention to favor adoption of the amendment on grounds detailed in a report filed with the Town and recorded under "Town Records 1969, Condensed" in subsequent pages of this Annual Report of the Town. The amendment was adopted at a special town meeting in December.

This amendment to the zoning by-law represents an adjustment to present day living conditions and housing needs. It was recommended after careful evaluation of the town's long range planning since initiation of zoning in 1928 and subsequent major revisions in 1937 and 1954. The Board was also satisfied that the amendment was consistent with the town's present long range goals. These goals, including the phrase "to beautify the town," were recorded in 1928 when the first zoning was established as a major planning tool to be used in achieving these goals. Since this time professional reviews of the town's progress have been made, namely, the Benjamin Report of 1956, a review by Charles E. Downe in 1960, and the General Review and Master Plan (Downe) of 1965, which have indicated that the long range planning goals have been pursued with consistency. In his latter report of 1965, Mr. Downe (page 103) summarized the town's basic goals as follows: "To preserve and enhance the present general character of Weston as an outstandingly attractive suburban residential community and protect it from adverse effects of urbanization and non-residential forms of land development."

It is hoped that the provision for a limited amount of apartments under the new regulations will meet the needs of a number of long term residents in enabling them to continue to reside within the town despite advancing age.

The Board continued to be concerned with the development of the town center and consulted with the Selectmen on means of achieving

a balance between the interests of the Town and interests of the land owners involved. Construction of a sidewalk along Wellesley Street south of South Avenue and plans for a sidewalk along Conant Road near the Town center also occupied the Board's attention, along with plans for improvement of traffic patterns in the Town.

The Board continues its interest in regional affairs through representation on the Metropolitan Area Planning Council, and a representative of the Board is meeting with concerned officials of Lincoln, Sudbury, Wayland, Concord, Bedford, Burlington and Wilmington to develop plans aimed at diverting future construction of a circumferential highway proposed through these communities.

As in the past, the Board is made aware of petitions presented to the Board of Appeals for variances and on occasion a representative has attended the hearing and the Board has submitted its recommendations to the Board of Appeals.

In other Town matters, the Board met with the Selectmen and the Housing Needs Study Committee to discuss housing needs in Weston. The Board understands that further study in the area of low cost housing is being carried on.

The Board also met with the Selectmen, the Town Cemetery Commission and several citizens interested in acquiring portions of Town-owned land for expansion of their businesses now existing on abutting land. The Board and the Selectmen concurred in recommending against the proposal, and the request was subsequently denied.

The Board found its operating efficiency seriously impaired upon the retirement of Charles H. Stimpson, Jr. as Town Engineer in the spring. The Board feels fortunate, however, in the selection of Kenneth B. Oates as Town Engineer in the late summer and wishes to thank both Mr. Stimpson and Mr. Oates for their efforts on behalf of the Board. The Board also wishes to thank those citizens of the Town who have attended public hearings and contributed their suggestions to the Board on various matters.

## REPORT OF THE TOWN ENGINEER

The activities of the Engineering Department since September 1, 1969 may be summarized as follows:

**Board of Selectmen.** Conferred with the Town Counsel, supervised the survey and prepared the plan of the Cummings-Janeway property on Concord Road for acquisition by the Town. In addition, attended joint meetings of the Board and the Planning Board relative to the proposed multiple-family zoning change.

**Planning Board.** Attended 17 regular meetings, 3 public hearings on subdivisions, and 1 public hearing on a zoning change. Three definitive subdivision plans were reviewed for the Board. Field trips were made for the purpose of examining various subdivisions in progress throughout the Town. Prepared agreements, cost estimates, and contracts relating to the completion of roads and utilities in certain subdivisions in the Town. Three preliminary subdivisions were reviewed for the Board.

**Board of Water Commissioners.** Attended 3 meetings of the Board. Prepared plans, specifications and contracts for the materials and extensions of mains in Birch Lane, Cabin Road, Coburn Road, Driftwood Lane, Norumbega Road, Rockport Road, Sylvan Lane, Webster Road, Wit's End, and Woodward Lane for the Board. At various times conferred with the Superintendent of the Water Department on matters pertaining to the water distribution system in the town.

**Highway Department.** Together with the Superintendent of Streets, investigated drainage problems in many locations throughout the town. Prepared plans and selected the site for the erection of an equipment storage building at the Town Dump. Attended a pre-construction conference at the District Office of the Massachusetts Department of Public Works in Arlington relative to the relocation and widening of Wellesley Street.

**Recreation Commission.** Assisted the members of the Commission in the site selection of land to be acquired by the Commission off Highland Street.

**Committee on Pedestrian and Vehicular Safety.** Attended one meeting of the Committee. Inspected the work and progress of the construction of the sidewalks on Conant Road.

**Miscellaneous.** Information was given to engineers, architects, attorneys, realtors, property owners, prospective property owners, students, state and federal officials and representatives of public utilities on engineering matters relative to the Town of Weston.

## REPORT OF THE CONSERVATION COMMISSION

This past summer Mr. Stanley G. French, of Ridgeway Road, our Chairman, passed away unexpectedly. His loss was keenly felt by all members of this commission. He had been our chairman for the past eight years and had been instrumental in many of our acquisitions and other activities. Mr. French had been a member of the Conservation Committee since its inception and of its predecessors in Weston, namely the Moderator's Town Forest Committee and the Weston Open Areas Committee. We will miss his kindly advice and friendly and warm personality as well as his extensive knowledge in the conservation field as it applied to our Town.

Mrs. Jane B. Danforth of Partridge Hill Road has been appointed to fill his unexpired term and Harold B. Willis Jr. of 39 Concord Road was elected to chairmanship of the committee.

This past year we were able to acquire from the Janeway and Cummings families a piece of property fronting on Concord Road amounting to approximately 10 acres. The purchase was made from appropriated funds. The land in question consists of fine rolling woodland with a small pleasant pond. A right of way was obtained to this property from the Merriam Street side as well, insuring its access and completing one series of walking and riding trails in this section of Weston.

We continue to survey open areas in Weston. We are hopeful of acquiring additional properties this coming year. In addition we are planning to extend the educational activities of this committee.

## REPORT OF THE BUILDING CODE STUDY COMMITTEE

By the end of 1969 the Building Code Study Committee had used up substantially all its original appropriation of \$1,000. which was voted by the Town when the Committee was established in 1966.

At a Special Town Meeting held on December 15, 1969, the Town voted an additional appropriation of \$3,700. for the estimated cost of printing the new building code and for clerical and miscellaneous expenses.

It is expected that the Building Code Study Committee will present a new building code with a recommendation for its adoption by the Town late in the Spring of 1970.

## REPORT OF THE REGIONAL REFUSE DISPOSAL PLANNING COMMITTEE

The regional refuse disposal planning committee has joined with similar committees of six other communities to study possible long term approaches to refuse disposal on a regional basis. For more than two and a half years this group has devoted considerable time and effort, operating as the West Suburban Regional Refuse Disposal Planning Board.

As of February 1970 we must report that no simple, straightforward, and economical solution to the problem has been found. Weston is more fortunate than some of its neighbors, however, in that our present sanitary landfill operation should provide us with ample capacity for several additional years. Nevertheless a regional approach to the problem is obviously an attractive one for the long term.

In the course of our deliberations we have given consideration to a wide variety of disposal techniques, to numerous potential sites for a facility, to collection and transport problems, and to the legal, financial, and political aspects of forming a regional district. Our studies have been aided by numerous contacts with industry and by our consultants, Camp Dresser and McKee. We may, perhaps, best define our present position by listing our findings to date:

1. The region, consisting of the city of Waltham and the towns of Arlington, Bedford, Concord, Lexington and Weston, has a present population of approximately 200,000 and generates approximately 700 tons per calendar day of refuse. In 1990 population is expected to be 250,000 and refuse generated 1280 tons per day.
2. While sites have been located within the region which would be suitable for a refuse disposal facility, actual feasibility depends upon the type of facility envisioned and other factors. No site within the region could be classed as ideal.
3. Cost of transportation of refuse from each community to a regional facility is a significant contributor to the overall cost of disposal, and is in the range of \$2 per ton on the average. This figure does not include house to house collection which would be at the discretion of each community.
4. Sanitary landfill constitutes the least expensive approved method of refuse disposal. Total costs of landfill operation should be in the range of \$4 per ton. Based on present refuse generated by the region, an area of 60 acres 8 feet deep would be required annually. Because any town within the region which had a suitable site for a landfill would most assuredly wish to preserve it for its own needs, sanitary landfill on a regional basis does not appear feasible.
5. Because of rapidly increasing construction costs and because of more stringent requirements with respect to pollution

control, capital costs for modern incineration are reaching astronomical proportions. Our consultants estimate that a plant capable of handling 1280 tons per day would cost approximately \$22,000,000 to construct. Costs per ton of refuse burned would vary between \$9 and \$16 depending upon whether the plant is operated at full capacity (1280 tpd) or at present requirements (700 tpd).

6. Other methods of disposal such as composting, composting with salvage, or high temperature incineration hold promise for the future. On the basis of current knowledge, however, these methods cannot be considered as proven, practical long term methods.
7. The process of compacting refuse into high density bales by means of hydraulic presses has received considerable attention recently. The Penn. Central originally proposed to us a disposal system based upon high density compaction and rail haul to a remote sanitary landfill location. More recently Reclamation Systems, Inc. of Cambridge, Mass. has begun to build a 200 tpd facility in Cambridge. Their plan is to operate in conjunction with the Boston & Maine Railroad and to use a landfill site somewhere along the B & M line.

The compaction — rail haul — landfill technique appears to the Planning Board to warrant additional study for the following reasons:

- a. The process appears to be sound from a technical point of view. While the system has novelty, the operations involved are proven techniques.
- b. Capital and operating costs associated with this system are projected to be reasonable. Capital costs, should the region build its own facility, are estimated to be in the range of \$1,000,000. (RSI estimates total costs of about \$7 per ton if they were to build and operate a facility for the district).
- c. The aesthetics of this type of plant would be much more acceptable to a community than those of an incinerator. No stack is required and no significant environmental pollution problems should arise.

Accordingly it is the recommendation of the Board that it continue its deliberations while watching carefully the development of this technique. From our point of view here in Weston, this appears to be a reasonable arrangement in that we have time to wait for emerging technology. For other participants, however, time is rapidly running out. Thus it may be necessary for one or more of the participating communities to take steps on its own. This can only be an expensive and imperfect solution.

# *Protection of Persons and Property*

## REPORT OF POLICE DEPARTMENT

The Weston Police Department increased its patrol and surveillance activities throughout the year in an effort to counter the mounting number of housebreakers operating in this area. As a result, eight arrests were made for breaking and entering or for attempted breaks. Six other persons were charged with receiving stolen property. Nevertheless, the incidence of house breaks continues to rise, indicating the need for even greater preventive measures in the coming year.

Increasing national concern over steadily rising crime rates and highway accident statistics has served to bring about the realization that these problems cannot be dealt with effectively by local agencies unaided. The result is a new awareness of the need for cooperation, coordination and financial aid on a national scale. Recently several federal laws have been enacted which offer assistance to state and local agencies in initiating new programs or upgrading facilities and equipment for purposes of crime control and improved highway safety. In Massachusetts such funds are administered by the Governor's Commission on Law Enforcement and Administration of Criminal Justice. We have applied for 50 per cent matching funds to upgrade our aging communications system and for 100 per cent reimbursed funds for a radar and two portable radios to strengthen our highway safety program. Federal funds have already been allocated in connection with the new state-wide communications system described elsewhere in this report.

The problem of illegal drug use has become increasingly serious during the past year and is of major concern to parents, police, the schools and to all who are concerned with the well-being of our young people. Available evidence indicates a wider experimentation with narcotics and dangerous drugs, particularly with various pills and L.S.D. or other hallucinogens. At this time there appears to be a minimal involvement with heroin and other so-called "hard" narcotics. However, in view of the reports from other greater Boston communities, we can expect an increase in the use of these most dangerous and addicting narcotics in the months ahead. While chronic drug abuse may be viewed and treated more as a medical and social problem than a legal one, there should be little consideration or leniency shown to those who sell or otherwise supply potentially harmful substances to their peers. The supplier, or "pusher", only serves to make drugs more readily available and, therefore, must be considered an important element in the growing problem. Increased efforts will be made to identify and bring appropriate action against those who, whatever the motive, have in their possession narcotics or harmful drugs for sale or other distribution. The process of sifting fact from fiction and rumor and gathering the necessary evidence to act in drug cases is very time consuming but most necessary. More man-hours must be

devoted to this task, and a specific recommendation to this effect will be found in the final paragraph of this report. It is also recommended that the Weston Drug Committee, formed last year to study the extent of the drug problem and take any relevant action, receive official recognition and support in its efforts.

In December Weston voted funds to support the Family and Youth Resource Center, a mental health clinic serving the three communities in the Waltham Court District (Waltham, Watertown and Weston). The Director, Dr. Stuart Q. Flerlage, M.D., psychiatrist and also Director of the Waltham Court Clinic, has established a referral system by which delinquent or potentially delinquent youngsters and their families may receive diagnosis and treatment in an effort to isolate and treat the underlying causes of the problem and by this action provide an alternative to juvenile court appearance. Referral will be from the court, law enforcement agencies, schools or others who may be in a position to recognize early signs of emotional problems. The Clinic will utilize existing community services as well as its own professional staff in providing treatment. Each of the three communities has been asked to contribute funds in proportion to the case load the clinic might handle in the coming year, using for an initial estimate the average number of juvenile court cases from each town during recent years. On this basis, Weston's contribution for the first year is 10 per cent (\$1,500.00) of the matching funds, with the other communities and Federal funds from the Omnibus Crime Control Act providing the balance of the estimated \$30,000 yearly operating costs. This is a modest outlay of funds in comparison with the potential benefit to the community.

In June six newly-appointed officers — Patrolmen Robert F. Allenberg, Roland W. Anderson, Jr., John C. Bentley, James J. McShane, Thomas F. W. Nims and Francis A. Searle, Jr. — graduated from the Municipal Police Training School, a five-week course covering all phases of police work. Approved schools are held several times during the year under the auspices of various larger police departments, and by law all new officers must attend within six months of receiving permanent appointment. As in the two previous years, Weston officers attended the Newton Police Academy through the courtesy of the Newton Police Department, receiving this valuable training without cost to the Town.

The college credit compensation program instituted last spring has been well received by the men of the Department. Eight officers are presently enrolled in one or more college level courses in Law Enforcement and related fields. Officers attend on their own time and without cost to the Town except for assistance in the purchase of required textbooks. Some of the courses currently attended are: Police Supervision, Police-Community Relations, Evidence and Court Procedure, and Seminars in Mental Health. This program should prove beneficial both to the department and to the community.

In April, 1970, the State Police teletype network, of which we are a member, will be terminated. This network, initiated in the

early thirties as part of the first statewide communications system, has undergone a number of revisions over the years in an effort to keep pace with the objectives of law enforcement. However, it is no longer equal to the task of gathering, storing and disseminating information or of providing communications for the law enforcement agencies of the state. The new Law Enforcement Agencies Processing System (LEAPS) will be a computerized operation capable of providing available information in seconds instead of hours or days, as is now the case. Stolen cars, wanted or missing persons, lost or stolen securities, stolen guns, narcotic drug information, outstanding arrest warrants, and other police information will be stored in the computerized system. The participating municipal police departments (over 90 at the onset of the program, with the eventual goal of a terminal in every Massachusetts community with over 5000 population) will be provided the means to communicate directly with each other, or with the Department of Public Safety, Registry of Motor Vehicles, Department of Probation and the Attorney General's office. In addition, each department will have the capability to inquire directly into the files of the National Crime Information Center in Washington, D.C. Although many of our inquiries deal with local problems, the increasing mobility of our population and the growing tendency for stolen goods to be transported out of the area where the crime took place, make the system applicable to even the smaller community. LEAPS will also aid us in fulfilling our obligation to other towns in the field of crime prevention. The computer, more than any single improvement since the two-way radio, will alter the course of police activities as we now know them. Part of the increased rental costs of this equipment will be paid by the Federal Omnibus Crime Control Act through the Governor's Committee on Law Enforcement.

Two fatal automobile accidents were recorded in 1969. One occurred in October on Route 30 when a truck crossed the center line and sideswiped an oncoming car, fatally injuring a passenger riding in the rear seat. In November, the operator of a vehicle traveling southerly on Route 128 was fatally injured when she struck the rear of a disabled vehicle near the Massachusetts Turnpike entrance. Both accidents occurred during daylight hours, and apparently involved a momentary lack of attention on the part of the operator of one of the vehicles.

The yearly statistics offer ample evidence of the Town's growth and the correspondingly greater call for police services. Arrests and Court cases alone were almost double the previous year's total, while at the same time, constantly changing laws have significantly increased the time required to process each case. Repeated court continuances are equally time-consuming. To cope adequately with these problems (and for the reasons set forth earlier in this report), the appointment of two additional officers is recommended. This would bring the total complement of sworn police personnel to twenty-three (the Chief, five sergeants, and seventeen patrolmen), or approximately two officers per thousand of population.

## **REPORT OF THE FIRE DEPARTMENT**

The winter of 1969 was a severe one, thus making winter fire-fighting operations even more difficult than usual. During the storm of February 9-10, the new station on Route 30 cared for over 50 stranded motorists. There was a low incidence of brush fires this year due to the frequent rains. If proper incinerators were used and caution taken with all outside fires, during the dry periods, a permanent reduction could be achieved. The number of calls for motor vehicle accidents has increased again this year. Mutual Aid calls will continue to show an increase as this very beneficial system of mutual assistance is expanded.

Emergency services are still experiencing difficulty due to the lack of Street numbers. Street numbers must be displayed at the end of the driveway to avoid any undue delay of emergency services. (Fire, Police, Ambulance, Doctor, Edison Co., Gas Co., etc.)

It is discouraging to see another year pass with the sewage disposal problem for the Town center still holding up the replacement of the antiquated headquarters station. It is my sincere hope that both projects will be undertaken in 1970. It is very difficult to maintain a safe and efficient operation in the present building.

### **FIRE PREVENTION**

The usual fire drills in the various schools and colleges were carried out as scheduled. Some of the alarm systems were improved as per our recommendation for better notification of the occupants. It is the Department's sincere hope that the holiday season fire prevention booklets sent out to all the residents were of assistance to them. There were no fires during this period attributed to the possible causes mentioned in this booklet.

An open house with fire prevention displays and demonstrations was held at Station-2 in October to begin Fire Prevention Week.

### **TRAINING**

Three more men attended the Advanced First Aid Course at Harvard College this year. Classes and seminars at Mass. Bay Community College were attended by four members. One member attended the New Hampshire Fire School. The seminar conducted by the Mass. Safety Council at the Boston Fire Academy was attended by two men. The Fire Chief, the Drill Master, the Fire Alarm Superintendent and the Mechanic have all been active in their respective organizations.

### **EQUIPMENT**

An order has been placed with the Pirsch Co. for a 750 GPM pumper to replace Engine 4, a 1949 pumper. The delivery will not be made until the end of 1970. A sub-standard portable radio was replaced. An electric pump was purchased to facilitate removing water from basement areas. The program to replace the old hose with the

new type which is far superior for use with our modern pumps is still being carried out.

## FIRE ALARM & COMMUNICATION SYSTEM

1969 has passed into history and a review of the progress made in fire alarm communications within the town during the past decade is in order. In 1960 there were only 58 fire alarm boxes in service and both the headquarters equipment and the outside physical plant were antiquated and unreliable. In the intervening ten years the central office in Headquarters has been replaced by the most modern communications console available and Station #2 (opened in 1968) also received similar equipment. The number of emergency boxes has increased to 219. In addition 95% of the outside physical plant (overhead and underground wiring) has been replaced with new cable of superior design. This latter program resulted in only one circuit interruption because of storm damage in 1969, a most remarkable record of reliability.

This modernization program could only have been accomplished through the cooperation of the Fire Chief and the various Boards of Selectmen who have wholeheartedly supported the desire to provide Weston with a fire and emergency reporting system second to none.

Again as I did last year I urge every citizen to learn the location of the box nearest to his home or place of business and not to hesitate to use it should an emergency occur. It has become all too obvious that the commercial telephone system is prone to excessive delays and even total failure during periods of extreme weather conditions. However your municipally owned and maintained fire alarm system can and does provide total reliability.

As the system has expanded during the past ten years naturally so has the work load. In last year's report I recommended the purchase of a bucket-type utility truck in the near future to provide more efficient and safer working conditions. I am requesting that this truck be purchased in 1970.

In 1969 the Fire Department responded to 182 Bell Alarms and 377 Still Alarms. Total of 559 Alarms as follows.

Fires in Buildings	97	Emergency Calls	154
Forest and Grass Fires	93	Accidental and Needless Alarms	38
Dump Fires	13	False Alarms	20
Vehicle Fires	27	Vehicle Accidents	53
Miscellaneous Calls	42	Mutual Aid Given	22
		Mutual Aid Received	19

Second Alarms: — 1

Box 741 on May 7, 1969 at 11:50 P.M.

From January 1, to December 31, 1969 the Fire Alarm Office operators on duty handled 559 alarms of fire, issued 1,995 permits for outside fires and received and transmitted 13,455 radio messages for the Fire Department, Water Department and Highway Department.

## **REPORT OF THE TOWN FOREST COMMITTEE**

The Town Forest Committee has in the past year been actively engaged in the maintenance of the existing trails in the Town forests. Particular emphasis was placed on the Jerico and Highland Street Town Forests. The Committee worked closely with the Fire Department and its personnel in keeping strategic trails cleared for safety and fire hazard purposes. The Committee also used the volunteer services of the Explorer Scouts who in serving the community interest also qualified for merit badge and promotion qualifications within the scouting organization. Such volunteer activity was welcomed by the Town Forest Committee and is to be encouraged as a community activity which also serves the Explorer Scouts.

1969 saw the authorization for acquisition to the Town Forests of a parcel of approximately 45 acres, owned by Whitney R. Nolte, with frontage on Highland Street directly across from the Paine Town Forest on Highland Street. The offer of the Nolte Forest was a generous and thoughtful move by the Nolte family. Five acres of the total are to be a gift from Whitney R. Nolte as a memorial to his mother to be known as the Evelyn White Nolte Forest. The gift and purchase will effectively increase the Highland Street forest area by 30%.

An additional 5 acres will be acquired by the Recreation Commission at the same time making a total acquisition by the Town of Weston slightly more than 50 acres from Mr. Nolte.

In 1970 the Committee will have to remove two diseased elm trees in the vicinity of the Ruth B. Dickson Memorial Ring on Concord Road. This work plus the impending addition of the Nolte Forest and the new work which must be done there has prompted the Committee to request that its annual appropriation be increased by \$300.00, that is, from \$700.00 to \$1,000.00 a year. The Committee feels that this amount with the exception of unforeseen situations not now anticipated would amply provide sufficient working funds for the Committee to maintain the Town Forests for the benefit of the residents of Weston.

## **REPORT OF THE TREE WARDEN AND MOTH SUPERINTENDENT**

This past year we have managed to keep abreast of the various projects of tree planting, pruning and tree removal. Tree removal consists mainly of elm trees attacked by Dutch elm disease for which there is still no effective cure. The town loses approximately 75-100 trees annually from this disease.

To compensate for the loss of these trees, we have undertaken an extensive tree planting program over the past four years — planting both ornamental and shade trees.

Again I wish to thank town officials and townspeople for their cooperation in the beautification of our town.

## REPORT OF THE BUILDING INSPECTOR

Number of Permits Issued					220
Fees Collected				\$5,514.00	
	(000 Omitted)

	<u>\$6,141</u>	<u>\$4,181</u>	<u>\$4,248</u>	<u>\$7,570</u>	<u>\$4,589</u>

## REPORT OF THE WIRE INSPECTOR

Number of Permits Issued	428
Fees Collected	\$4,783.00

## REPORT OF THE INSPECTOR OF GAS PIPING AND APPLIANCES

There were 166 permits issued for a total of 422 appliances.

The sum of \$1,457.00 was collected in fees and the money paid to the Town Treasurer.

## REPORT OF THE INSPECTOR OF PLUMBING

There were 209 plumbing permits issued as follows:

New work	71
Alterations	138

The sum of \$1,097.50 was collected in fees and the money paid to the Town Treasurer.

# *Health and Sanitation*

## **REPORT OF THE BOARD OF HEALTH**

The Board of Health held ten regular meetings during the year and the Cooperative Boards of Health met once.

The Board reorganized following the Town Meeting, with Dr. Thomas C. Peebles as Chairman, Dr. David H. Reid as Secretary, and Mr. William W. Gallagher, Jr., Member. The staff, as then constituted, was reappointed.

### **Diseases Dangerous to the Public Health**

It is required by law that all animal bites and communicable diseases be reported to the local Board of Health. A total of 117 such diseases and bites were reported in 1969. See Table I for details.

### **Public Health Nurse**

The duties of the Public Health Nurse envelop a wide range of responsibilities and activities. Nursery schools and day care centers are required by law to be licensed by boards of health, and it is the nurse who inspects facilities and checks on the medical records of staff and children in determining compliance with the regulations. Inspections are also made by other town officials, such as wiring inspector, fire chief, sanitarian, so that any parent who has children attending a licensed care center can be assured that the ultimate is done for their protection. Day camps also receive similar inspections. There are five day care centers and seven summer day camps operating in Weston.

Premature births are reported to the Board of Health and the nurse consults with the parents as to possible need for financial and/or other assistance.

In addition the nurse does the follow-up on reports of contagious diseases, screens and schedules treatment for patients who are eligible for the Dental Clinic. She also schedules and supervises regular public health clinics and initiates new clinics when advances in public health are made and new vaccines become available. In 1969 two new vaccines were offered, rubella (german measles) and mumps. In cooperation with the Town of Wellesley, blood sugar determination tests were offered to resident adults of both towns; this is a new program planned and carried out with the assistance of the Mass. Department of Public Health, Adult Division, and aimed at discovering the "hidden diabetic." There was a good response; thirteen were subsequently re-tested; five were referred to their physician for further evaluation. The nurse assisted throughout this program.

The nurse works closely with the schools in all areas pertaining to health, and is available for classroom instruction. In 1969 she gave twenty-eight talks on drugs and one on Dental health. See Table II for details on nursing activities.

### Dental Services

Dental care for eligible children is administered in the private offices of local dental physicians and the Board of Health pays an hourly fee. 17 children from five families received dental care during 1969. In 59 visits the following work was done.

Fillings .....	77	Prophylaxis .....	14
Fluoride Treatments .....	4		

### Environmental Sanitation

As in previous years, most of the Sanitarian's time had to be allocated to services related to the installation of private sewage disposal systems. There were fifty-four sewage disposal permits issued and a total of four hundred eighty-six consultative and inspectional services rendered. The number of permits issued for the year showed a reduction of 29.8% over the year 1968, and this in part might be attributed to the 'tight money' market.

The responsibilities of the Sanitarian encompass a wide variety of activities. All food service establishments are inspected at intervals and annually before re-licensing. Prospective establishments are provided with consultation and recommendations. Public and semi-public bathing areas and pools are inspected and water samples collected for analyses. Day Care Centers and Day Camps are inspected, and the Sanitarian is always available for consultation on pertinent problems. Subdivision plans are submitted by developers and are evaluated and the areas inspected. All complaints are investigated, and, if a public health problem is involved, the Sanitarian works with those involved to abate the problem. In addition, the Sanitarian assists at the rabies clinic and is in attendance at various meetings and conferences and public hearings sponsored by health oriented organizations.

Due to the extensive and careful evaluation and consultation and inspection services available, we are fortunate. The extremely wet ground conditions experienced during the Spring and Fall of 1969 did not affect many private water and sewage disposal systems.

### Sanitation Services

Food Service Establishments	48
Nursery Schools (Day Care)	5
Day Camps	9
Complaints (includes reinspections)	48
Subdivisions	25

### Laboratory

Water samples are delivered to a laboratory in a neighboring town. During 1969, thirty-nine samples were collected and analyzed.

Private Water Supplies	12	Bathing waters	11
Town Water Supply	16		

## Nutrition Services

The Nutritionist works as a team member with other health, welfare, and education specialists and nutrition is a part of the overall health program. Her work is not only in the application of the practical knowledge of nutrition and diet therapy, but in how to work, plan, and use this knowledge with other professional people as well as the citizenry.

The nutrition program covers planning and carrying out practical programs based on the science of nutrition and the needs of the community; individual counselling to patients and/or their families in the area of diet problems; therapeutic diet interpretation by referrals of physicians and public health nurses; providing source materials for nutrition projects in the schools; availability for classroom talks on nutrition and cooperation with physical education instructors in incorporating nutrition education into the physical fitness program; presentation of up-to-date nutrition information through timely articles in local newspapers; conducting educational classes on specific aspects of nutrition and diet; serving as consultant to the public health nursing staff in the area of nutrition.

**Nutrition Program in the Schools** The major part of the work in 1969 was devoted to developing the nutrition in the schools. The Nutritionist spoke to all of the high school gym classes on Keeping Fit Through Nutrition. According to surveys, many teenagers have poor eating habits, with the teen-age girl rating the poorest diet. In an effort to convince these young people of the need for choosing food wisely, emphasis is placed on the role of food in attractiveness and physical energy. Talks were also given to the junior high school girls in the gym classes.

At the primary and intermediate grade levels emphasis in nutrition was on the relationship between good food and healthy growth. The rat experiment, which involves a comparative study of nutrition based on a series of dietary experiments with two white rats, was successfully carried out at the Country School. The talks to the 7th and 8th grade home economics classes coincided with the Apollo 12 space flights so that it was possible to relate nutrition to the astronauts and space foods.

**COMMUNITY EDUCATION** Two series of weight control classes were conducted for Weston and Wellesley residents. Each series consisted of eight classes which were held at the Wellesley Friendly Aid. In view of the current focus on the problem of overweight and poor nutrition, fad diets and food quackery, these classes are a means of conveying factual information to the public in an effort to promote sound dietary practices and good nutrition.

The Diabetes Detection Clinic was held in June for Weston and Wellesley residents. The Nutritionist participated in the clinic and evaluated food intakes as related to the post prandial sugar test. Following the clinic, a Diabetes Education Series was held in the Fall for diabetics and/or their families. The purpose was to give

added understanding to persons with diabetes about keeping their condition well controlled. The series consisted of five classes and included a general discussion of diabetes, the importance of the diet and selection of foods, meals away from home, food during illness, the use of insulin and oral drugs, and personal hygiene. A Wellesley physician gave a general talk on diabetes, a public health nurse taught the classes on insulin, oral drugs and personal hygiene, and the Nutritionist conducted the classes relating to diet.

**DIET THERAPY** There were seven diet conferences during 1969. Among the diets referred for interpretation were diabetic, sodium controlled, low cholesterol, and low fiber diets.

Following is a resume of nutrition activities in Weston during 1969.

Patient Conferences	Office: 1	Home: 6	7
Nutrition talks in the Schools			59
Rat Experiment in School			1
Weight Control Classes			16
Diabetes Education Series			5
Conferences: Nurses, teachers			18
Articles Submitted to Local Newspapers			8

#### **Inspection of Animals & Slaughtering**

Quarantine Visits (due to bites)		50
Animal Census		316
Horses	112	
Cattle	6	
Swine	182	
Goats	2	
Sheep	14	
Dogs Vaccinated	284	

#### **Births and Deaths**

89 Births .....	9.0 per thousand
56 Deaths .....	5.7 per thousand

#### **Biological Supplies and Diagnostic Test Outfits Dispensed**

Biologic supplies and diagnostic test kits are available without charge to local physicians and the Board of Health serves as a distribution station. The following were dispensed in 1969:

<b>Biologicals</b>	<b>Number of Doses</b>
Diphtheria, Tetanus, Pertussis Antigen .....	1683
Diphtheria and Tetanus .....	645
Immune Serum Globulin .....	70 c.c.
Poliomyelitis Vaccine (oral trivalent) .....	1250
Smallpox .....	1161
Tetanus Toxoid .....	80
Typhoid — monovalent .....	81
Measles Vaccine .....	255

#### **Diagnostic Test Outfits**

Throat Culture .....	288
Wassermann .....	150

Tine (TB skin test) .....	125
Enteric Culture .....	36
Vaccine Needles .....	28 pkg.

The Board of Health validates International Travel vaccination certificates for patients of local physicians. 438 were stamped in 1969.

### Plumbing Inspection

The fees for plumbing permits are turned in directly to the Town Treasurer, and the charges for subsequent inspections are paid by the Board of Health. 209 permits were issued in 1969 and \$1,097.50 was collected in fees.

## REPORT OF THE EAST MIDDLESEX MOSQUITO CONTROL PROJECT

The East Middlesex Mosquito Control Project conducted about the same program as in the preceding year. Field observations didn't indicate much choice between the two years, but the mosquito control office received about one-third as many complaints in 1969.

Field work commenced in January with knapsack dusting of Methoxychlor on frozen swamps. This reduced the amount of early mosquito breeding in April and May. During the mosquito breeding season the larvae were sprayed with Abate by hand or by helicopter. In street catch basins the motorcycle units sprayed Baytex, once in July and a partial second application in August.

Adult mosquito infestations were either fogged by trucks at night, applying 1% Dibrom in fuel oil, or sprayed by helicopter. This aerial spraying was the ultra-low-volume method (U.L.V.) usually applying Malathion technical at 3 oz. per acre. The insecticides applied by the Project conform to the regulations of the State Pesticide Board.

Ditches were cleaned above Nonesuch Pond, Cherry Brook, Possum Road, and south of Highland Street near Route 30.

### FINANCIAL STATEMENT

Balance on December 31, 1968	\$1,678.12
Appropriation for 1969 received \$5,000 on April 24	
4,000 on Sept. 4	9,000.00

#### Expenditures in 1969

Labor	3,428.93
Adm. & office oper.	661.24
Insurance	638.23
Utilities	78.78
Rent	231.75
Equip. & field oper.	1,379.46
Insecticide	1,599.15
Aircraft service	696.50
Other services	11.34
Vehicle replacement	623.90
Credit	12.50
Total	<u>\$9,336.78</u>

Balance on December 31, 1969	\$1,341.34
------------------------------	------------

The East Middlesex Mosquito Control Commission has requested an appropriation of \$9,500. to finance the program from April 1, 1970 to March 31, 1971.

# *Highways and Bridges*

## **REPORT OF THE SUPERINTENDENT OF STREETS**

During 1969 the Highway Department performed its usual maintenance work. All public ways were swept to remove the accumulation of sand from the winter and debris was picked up along the roadsides. We had an extremely hard winter requiring the use of much sand which caused extra work in the spring clean-up.

The following roads were resurfaced:

Hill Top Road	Myles Standish Road
Lexington Street	Pigeon Hill Road
Love Lane	Warren Avenue

The following roads were hot topped during 1969:

Fairview Road	Merriam Street (in part)
Gate House Lane	Oakdale Avenue
Ledgewood Road	River Road (in part)
Loring Road	Tyler Road
Maple Road	Wildwood Lane

### **Sidewalks:**

Sub-base for 900 feet of sidewalk was prepared along Wellesley Street in conjunction with installing 900 feet of drain pipe.

### **Drainage:**

Several improvements to the drainage facilities which carry surface water from public ways were completed. A major drain of 24-inch diameter pipe was installed in the area of Pond Brook Circle (560 linear feet). Approximately 290 feet of drain was installed to improve the disposition of water from a section of Ridgeway Road in the vicinity of Chiltern Road. To facilitate the disposition of water from the portion of Wellesley Street being reconstructed (north from South Avenue) the Department installed 900 feet of pipe in Wellesley Street.

### **Fences:**

Repairs to fences were made during 1969.

### **New Equipment:**

A new second street sweeper was purchased in 1969 which will greatly expedite the removal of sand from the streets after winter ice and snow control operations. Two new sand spreader bodies were procured during 1969; each replaced an old unit which was removed from service. A leaf vacuum loader was procured which greatly facilitates the fall clean-up of sidewalks and roadsides.

### **Traffic markings and signs:**

Pavement markings were repainted throughout the town, and new signs installed and replacements made as required.

**Chapter 90 Maintenance:**

A section of South Avenue was resurfaced, completing the resurfacing of South Avenue throughout its extent.

**Work For Other Departments:**

The swimming pool was cleaned and made ready for the summer program of the Recreation Commission. Playgrounds were mowed for the Commission.

# *Schools*

## REPORT OF THE SCHOOL COMMITTEE

### Organization, Activities and Policies of the School Committee

The School Committee is responsible for school policy, plant, and personnel. At its annual organization meeting for the report year 1969, the Committee reelected Mr. Robert Haydock, Jr., Chairman, and Mrs. Margaret M. Pexton, Secretary. In accordance with the tradition of maintaining continuing communication with school-related Town Committees, the following liaison assignments were made:

"Our Schools" — Mr. Louis J. Roehr

Finance Committee — Mr. Robert Haydock, Jr., Mr. Louis J. Roehr, and Mr. Jack H. Vernon

Visiting Nurse Association — Mrs. Margaret M. Pexton

High School Building Committee, Junior High School Building Committee, and Elementary School Renovation Committee — Mr. Jack H. Vernon

Library Trustee — Mrs. Margaret M. Pexton

Parent-Teacher Organization — Mrs. Margaret M. Pexton, Mr. Louis J. Roehr

Collective Bargaining Representatives — Mr. Edward E. Phillips, Mrs. Margaret M. Pexton

The Committee met in regular public sessions twice each month during the school year, with additional executive sessions for collective bargaining with school personnel and for discussions involving individuals.

The resignation of Mr. Louis J. Roehr, effective October 24, 1969, generated a new procedure to fill the vacancy. Interested residents were invited to apply, an open meeting of the Board of Selectmen and School Committee was held to hear the candidates, and they were voted on by secret ballot of Selectmen and School Committee members in the open meeting. Mrs. Molly A. Levin was elected through this procedure on November 10, 1969 to serve until the next regular town election.

School Committee actions during the year were intended to promote a learning environment in which the following goals could be pursued: 1) Achievement by each student commensurate with ability; 2) Encouragement of self-learning; 3) Enhancement of the positive self-concept of each learner; 4) Acceptance of change in society; 5) Appreciation of learning for its own sake; 6) Development of insight into the interrelationship of knowledge; 7) Development of critical judgment; 8) Aesthetic competence; 9) Physical and mental well-being.

To facilitate the schools' work toward these goals, the School Committee has felt an important ingredient is a low student-staff ratio which allows two advantages: greater attention to the unique needs of each student, and sufficient support from non-teaching professionals for guidance, library, remedial work, etc. Another im-

portant ingredient is a continual search for and appraisal of educational materials, curricula, methods, etc. Yet a third ingredient is a diversification of educational offerings sufficient to satisfy the differing needs among the student population. The School Committee has had outstanding cooperation from the townspeople in understanding the nature of the town's public education system and in supporting its high costs. In turn, the school system has contributed greatly to the town's qualities as a place of residence and indeed attracts families interested in fine educational facilities.

#### **On School Personnel**

In September, 1969, the total professional staff in Weston included 199.6 people. Of this number, 48 were new to the system in fall of 1969, 38 as replacements and 10 to provide for changed enrollment or new program. Among the new staff members, 27 held Bachelor's degrees, 21 had Master's degrees; 34 had three or fewer years experience, 14 had more than three years experience. The 48, with degrees among them from 45 different colleges, were screened from approximately 2000 applications and were hired following a sequence of recruitment procedures involving interviews, references, and often observations of the applicant in the classroom.

The 38 staff members leaving the Weston system in 1968-69 represent 19.3% of the total staff, the smallest percentage of turnover in the last ten years.

The personnel were organized, as before, in the team concept at the elementary level, with a team leader and a team aide. At the junior high level, the staff was organized into "houses" within which the team concept was implemented. The senior high staff was organized by department.

#### **On School Program**

Perhaps the area requiring the greatest sensitivity on the part of the School Committee is the continuing attempt to match the school program to the changing needs of the children in the community. In general, the School Committee has encouraged innovative and creative development of new ideas and programs. Where considerations such as cost, plant, appropriateness, etc. are involved, the Committee has attempted to review and rationalize program developments. The Committee has been very much aware, however, that changing norms in the society at large and a slowly evolving judicial interpretation of rights and authority, particularly with respect to education, present challenges to accepted precedents. Both procedure and substance of school program development are in a state of flux nationally, and this is reflected on the local scene.

The program in the Weston elementary schools has been developed largely by local teachers over a period of years, often in summer curriculum development workshops. It combines materials and curricula from outside curriculum development centers with materials produced locally. The Language Arts program, called the Nebraska Plan, presents good literature, gives patterns for children to emulate, emphasizes creativity, and outlines expectation levels with **graded**

material and definite book lists. Reading skills, started with a phonetic approach, are taught in the last three elementary years under a plan devised locally, emphasizing a continuum of word analysis, comprehension, translation, organization, and extrapolation. Students progress at their own individual rate by self-testing. A reading readiness program in the kindergartens emphasizes symbol discrimination and identification.

Science instruction in the elementary schools has included some units from curriculum development centers such as Educational Development Center and Selective Educational Equipment. Within the year, a new unit of study on the human body was introduced with preliminary study of life cycles of animals. A new venture at the sixth grade level during the year was the introduction of a unit on values and judgments, and particularly the making of value judgments in personal behavior.

For the last four years, elementary mathematics has followed the Greater Cleveland Mathematics Plan, which is designed to go beyond a training in method to a more basic understanding of relationships in form and quantity.

An additional art teacher at the elementary level during the year has stimulated exploration of creative expression in other studies—social science, reading, etc. Another innovation was the use of students helping students, older helping younger, faster helping slower.

Some progress was made toward more intensive use of teacher talent by assigning an assistant teacher to some teams, which would then consist of a team leader, teachers, an assistant teacher, a team aide, and student teachers. Student teachers have come largely from Boston University, with a few from such other institutions as Harvard, Wheelock College, Boston College, and Regis College.

At the junior high school level, the move into the new building in fall of 1969 facilitated organization of the student body into "house" groups. There is continuing effort to reinforce each student's sense of identity with his group in the hopes that he will feel more secure in the larger school and will relate more closely to a smaller group of peers and teachers. Each house has elected its own council, has produced its own publication, and has a faculty house leader. Though the delay in the completion of the gymnasium facility has had an effect on the athletic activities, intra-mural competition between houses should be possible when the facilities are available.

Several developments in junior high program are worthy of comment. A new study of film-making was introduced, with sessions once weekly during half of the seventh and eighth year. The students are taught essentials of movie composition as a visual form of expression. Dramatics were again included in the curriculum during part of each year. The facilities in the new building make possible more laboratory work in the science program, which emphasizes environmental biology in the seventh grade and earth science in the eighth grade. In social science a human relations unit dealing with majority-minority relations, ethnic groups, attitude formation, etc.

was initiated, and the foreign language instruction at this level was modified to allow an opportunity for some eighth graders to select a period or two of Latin or Russian each week under high school instructors. Junior high students were grouped homogeneously for math instruction, and some of the most able students studied algebra in grade seven, with a few in grade eight studying geometry. Others studied algebra in grade eight, and most followed the regular math course which leads to the study of algebra in the ninth grade.

Requirements for graduation from Weston High School included, as before, four years of study of English, two years of study in social science including one year of U. S. history, three years of study in science and mathematics (with at least one course in mathematics), one speech course, and four years of physical education. Advanced courses were offered in mathematics, English, social studies, science, and French, and made it possible for some students to achieve advanced placement in college. Courses in major disciplines were usually taught on different levels geared to the estimated capabilities of the students.

The required courses of study were augmented with many electives in different fields. In English, for example, students in fall of 1969 were offered courses in American Literature, Great Western Literature, Southern Literature, Composition in Literature, Creative Writing, Contemporary Novel, and Communications. Again, in the social sciences, many electives were offered, such as Anthropology, Modern Western Traditions, Modern Non-Western Traditions, Ancient and Medieval World Traditions, and Europe in the Twentieth Century. Included in the mathematics curriculum this year for the first time was a course in Computer Methods in Math. Science offerings included the standard college preparatory biology, physics, and chemistry courses, a few more introductory courses, and two advanced or second-year science courses.

Foreign languages offered at Weston High included French, Russian, Latin, and Spanish. An advanced fifth-year French course was included, and this year, a fourth-year Spanish course was added. In fall, 1969, the art curriculum was reorganized to offer a structured sequence of instruction in art skills. New also were two courses in crafts. The physical education program was also reorganized to provide sequential training in physical skills, with each year's class trying different skills.

In the home economics area, a new seminar was developed for juniors and seniors in Foods and Nutrition, centering around meal planning and preparation; and in industrial arts, a third-year Electronics course was added on an independent study basis.

One of the changes during the year was the institution of a Senior Year Study Program, developed by a faculty-student study committee, through which students with faculty approval could be excused from one or two courses to undertake independent study during the second half of the senior year. New in fall of 1969, the program was still evolving at year's end.

In its continuing attempt to match program to student needs, the School Committee has recognized that a large majority of Weston students are preparing for college entrance. Nonetheless, it recognizes its responsibility to provide students who are not anticipating further academic work with the best work preparation that it can prudently make available. The industrial arts program at Weston High offers certain preparation—courses in Wood Production and Construction, Electricity and Metallurgy, Power Mechanics, Electronics, and Mechanical Drawing. Some students participate in a Work-Study Program which allows them under school guidance to continue in school half days while working at a job the other half. A few students elect to attend vocational schools in Waltham and Newton, with tuition paid by the Weston schools. The Weston schools obviously cannot offer, for a relatively very few students, the variety and depth of training that is required for craft or technical work in a highly technological society. Recognizing this situation, the Town has appointed a Committee to explore the possibilities of Weston joining with other towns in a regional vocational program. The School Committee maintains liaison with this Committee through Mrs. Pexton, a member of both Committees, and will continue to cooperate with efforts to provide the most modern vocational training in the most efficient manner for those students who seek it.

The rapid pace of change in the general society continues to require reassessment of educational programs. Last year's addition of a more advanced electronics course, a more advanced language course, computer math, crafts, units on human relations and the human body at the elementary level, etc., are all a part of the school response to the community's changing needs.

#### **On Pupil Personnel Services**

One of the developing trends in progressive communities is the acceptance of increasing responsibility by the schools for services peripheral to the instruction activity. As scientific research uncovers more and more evidence of relationships between a child's success in learning and his physiological, emotional and developmental state, parents press for the schools to take a larger role in screening, diagnosing, treating, or handling children with possible or actual handicaps to learning. For some problems, the State has mandatory procedures for screening, diagnosing, etc. There are also various State financial aids to encourage communities to deal with certain problems. A major problem with such supplementary activities has been the lack of community resources available to back up the school's recommendation for outside treatment or help. Again, there have been a number of different outside agencies whose services to Weston children would be available were there personnel to seek them out, coordinate the efforts, and follow through on the recommendations.

The Department of Pupil Personnel Services participates in placing children in special classes or services, serves as liaison with

outside agencies, the Bureau of Special Education in the State Department of Education, the Division of Child Guardianship in the Bureau of State Welfare, the courts, and oversees and coordinates the entire pupil services effort in the schools.

In December, 1969, 253 Weston children were enrolled in special services within the Weston school organization, distributed as follows:

Remedial reading	112
Perceptual Development	52
Transition Class	18
Mental Retardates	4
Emotionally Disturbed	2
Tutorials (High School)	14
Speech and Hearing	51

An additional 33 were enrolled in schools outside the Weston school organization, in many cases with tuition and transportation paid by Weston. The distribution is:

Emotionally disturbed (day school)	6
Emotionally disturbed (residential)	3
Mentally retarded educable (TEC program)	5
Mentally retarded trainable (TEC program)	2
Mentally retarded (State school)	3
Mentally retarded (20-26 yrs. old)	4
Physically handicapped	3
Blind and part-sighted	2
In and out of school tutorials	1
Others not yet diagnosed	4

The speech and hearing program conducted in the three elementary schools included the screening of the entire school population over a 2-3 year period, and then each succeeding year additional screening and referrals of children new to the school. Further testing took place when the initial screening showed deviant speech, and children accepted by the school therapist were assigned to two sessions per week of 20-minute therapy. The therapy included articulation, voice problems, cleft palate speech, stuttering, cerebral palsied, retarded, language problems, and hard of hearing.

An adjustment class for children aged 6 to 9, certified under Chapter 750 of the state law relative to the instruction of emotionally disturbed children, was held with enrollees from Weston, Needham, and Wayland. The prime objective of the class was to integrate its members eventually into regular classes, and toward this end, the teacher met with various teacher teams, a consulting psychiatrist, and frequently with the school adjustment counselor, as well as the parents.

For elementary age children with perceptual development problems, a non-graded class was held with work both on the perceptual disability and on academic areas. Again, the objective was to integrate the children eventually into regular classes. Another group of elementary age children was given special tutoring each day for perceptual problems through a totally individualized program. A

teacher trained in the Gillingham Method dealing with dyslexia was employed.

At the junior high level, a group of 15 under-achieving students received special help in language arts under a teacher employed part-time for the purpose, and at the high school level, funds granted through the Elementary and Secondary Education Act, Title VI, have supported a 9th grade special tutoring project for under-achievers. A half-time tutor was employed for the project.

For educable mentally retarded aged 6 to 12, a non-graded class was held at the Country School, with four in attendance from Weston and four under tuition from Wayland. Through cooperation with other communities involved in The Educational Cooperative (TEC), classes for mentally retarded were available at four levels, primary through senior high, with the Town providing tuition for those students assigned to classes in other communities.

For students at high school and elementary school levels who experience reading difficulties, three teachers have devoted their full time to special group help in reading. Their groups were made up of students referred by teachers or guidance counselors, or whose test scores indicated a need.

A notable fact of which the townspeople should be aware concerning special services is their considerably larger unit cost than the cost of the regular academic program, both because the need is frequently for individual attention and also because the needed resources cannot be used efficiently by a large group.

By the end of the report year 1969, a serious problem of allocation of guidance services emerged at the secondary school level. The four high school guidance counselors reported an inability to devote sufficient time to program and college placement work because of the demands on their time of personal counseling, often involving both drugs and family problems. The School Committee is attempting to work out with other boards and committees of the Town an appropriate response to the serious need of students for personal counseling. An affiliation has been made with the Wellesley Human Relations Council to which Weston students may be referred, and the Committee notes the availability to Weston residents of the new mental health clinic established at the Newton Wellesley Hospital by the Community Mental Health-Mental Retardation Area Board of Newton-Wellesley-Weston.

In addition, a school psychologist has been requested by the administration for the next academic year to help serve diagnostic and referral needs. The question remains to what extent the schools can or should undertake to satisfy the growing need for psychological counseling, particularly at the high school level.

#### **On Extra-Curricular Activities**

Supervised after-school sports for 4th, 5th, and 6th grade students were sponsored daily, with one or two opportunities per week for any individual child depending on age and sex. In addition, elementary age children were frequently invited to participate in

other activities: art work, music groups, typewriting lessons, occasionally cooking sessions. Several excellent dramatic presentations were produced by the elementary staff.

At the Junior High, the following inter-scholastic competitive sports were offered: football, field hockey, basketball, girls' basketball, baseball, track, girls' lacrosse, tennis.

Senior High inter-scholastic sports included varsity football, junior varsity football, freshman football, soccer, cross-country, track, girls' varsity field hockey, junior varsity field hockey, varsity basketball, junior varsity basketball, girls' varsity basketball, girls' junior varsity basketball, varsity baseball, junior varsity baseball, hockey, wrestling, indoor track, girls' lacrosse, varsity tennis, junior varsity tennis, girls' tennis, golf, skiing.

The availability in 1970 of the new physical education plant should see the development of a more extensive intra-mural sports program.

The high school dramatics group produced several plays during the year, and the choral and instrumental groups gave Christmas and spring concerts, featuring student soloists.

The Committee anticipates that as the school population grows, increasing interest and activity will be shown in literary, journalistic, art and science endeavors after school to broaden the environment from which the students absorb their life values.

#### **On Research, Development, and Evaluation Activities**

Several research plans were formulated during the year by Mr. Donald Pierson, newly appointed Principal of the Brook School and Director of Research. Two programs have been formally initiated. The first is a study of the characteristics of kindergarteners in an effort to determine the nature of the development taking place. This study is expected to yield information of value to Weston's kindergarten program and to later grades as this group moves along. A second study is an item analysis of some of the standardized tests in use to determine whether they serve an appropriate purpose in Weston, i.e. whether they measure what is taught in Weston. Two other projects still in the planning stage are a study of possible remedial physical education for children with relatively poor coordination, and a study of children in the transition class to determine its benefits.

Development of curricula for elementary studies proceeded under a number of Curriculum Study Committees: one each in Social Studies, Science, Reading, Sex Education, Mathematics, Language Arts, and Human Relations. A number of workshops for purposes of curriculum development were conducted during the summer of 1969, and a total of 44 teachers were hired for periods of two weeks to one month to participate.

Perhaps the most basic question that is asked about the school system concerns evaluation of performance—both that of the students and that of the system. It is also one of the most elusive aspects of education. Not only for college entrance purposes, but for

the larger purposes of determining public policy on education, there is a large need for sharper definition of the qualities to be measured and for more sensitive instruments to accomplish the measurement.

At best, only inferential conclusions can be drawn from achievement test results and from College Boards and college placement. Generally, the Scholastic Aptitude Test scores of the top 50% of Weston's graduating classes usually fall into the top 30% of all seniors who take the College Board examinations. Whether this good performance reflects on the qualities of the Weston student population or on the effect of the school system remains unknown.

Weston graduates have been typically dispersed as follows: 60% to 4-year colleges, 25% to 2-year colleges, and approximately 10% to other educational endeavors. While this appears to be a considerably higher than national average record of students going on to further education, what interpretation can be placed on the facts is still uncertain.

The following quantitative profile of the class of 1969 is given:

#### Class of 1969 Achievement Tests

Test	No. taking Test (of 186 srs)	Weston	National
		Average Score	Average Score
Eng. Comp.	121	564	511
Math 1	87	579	523
Math 2	28	749	665
French	61	592	561
Physics	16	694	574
Spanish	12	501	500

#### Scholastic Aptitude Test Scores

	Weston Class of 1969	National Average Scores for 1969
Verbal	533	460
Mathematical	574	495

Maximum score attainable is 800

In December 1967, a group of superintendents of suburban school systems throughout the United States launched a "Suburban Superintendents Testing Program" to generate data for use in comparisons among communities of similar socio-economic makeup. The communities involved were: Beverly Hills and Palo Alto, California; Evanston, Lake Forest and New Trier, Illinois; Oak Park, Grosse Point and Birmingham, Michigan; Clayton and Webster Groves, Missouri; Great Neck, Manhasset, Port Washington and Commack, Long Island; Shaker Heights, Ohio; Mt. Lebanon and Radnor, Pennsylvania; Mercer Island, Washington; Tenafly, New Jersey; Mamaroneck, New York; and Weston and Winchester, Massachusetts.

Under this program, a mental ability test and a reading test were administered to all 6th grade students in each town during October 1968, and a reading test alone was given to all 10th grade

students. The tests were corrected and the data prepared by The Educational Testing Service of Princeton, New Jersey.

These tests showed that while the range of mental ability among Weston 6th graders was as broad as elsewhere, the median Weston score in mental ability was higher than the median of the suburban towns as a group, which was in itself considerably higher than the national median. In word meaning and in paragraph meaning test, the median of Weston 6th graders was also above the median of the other suburbs as a group. At the 10th grade level, Weston students again had a higher median score than the suburban towns group.

Future cooperation in evaluation activities among these towns is not clear and will depend on whether or not sufficient further interest can be generated among the towns to involve a statistically significant population.

### On Costs

Weston's school budget is made up through a round of request and review procedures, initiated with requests within each school which are reviewed by building principals and the Assistant Superintendent for Business. Adjustments made following this review are incorporated into a preliminary budget which the Superintendent reviews with the School Committee category by category. The Committee traditionally meets with the Town Finance Committee and the Board of Selectmen to discuss the budget and its implications before presenting it to the Town Meeting for appropriation.

In calendar year 1969, the total school operating appropriation amounted to \$3,202,144. Of this amount, \$3,150,816.79 was actually spent, returning to the Town a balance of \$51,347.21. This expenditure represented a 16.8% overall increase over the previous year, and an increase in the salary item alone of 22.2%. Since teacher contracts are made on an academic year basis (September-June) and monies are appropriated on a calendar year basis (January-December), two-thirds of the salary budget appropriated annually in January is already committed by contracts entered the previous September. Capital outlay comprised less than 1% of 1969 expenditures, expenses 8%, utilities and fuel, 3%.

State aid to the Town, including general school aid, reimbursement for transportation, for education and transportation of physically and mentally handicapped, for buses, and other receipts amounted to 11.6% of the total expenditures for 1969, so that the net expenditure by the Town for the year's operation of schools amounted to \$2,778,415.

Traditionally, the per student cost (without transportation which obviously varies with geography) is used as the most valid comparison among communities of educational effort and efficiency, although even per student comparisons are hampered by unmeasurable differences—the advantages of larger school systems in maximizing use of administrative personnel, plant, and in quantity purchasing, for example. The per student cost in Weston for academic 1968-69 was \$1,013,

transportation included. Comparisons of per student cost without transportation among a number of communities are shown in accompanying graphs.

Weston's per student cost last year was second highest in the State for full K-12 systems. The factors most responsible for this cost are a guiding policy of maintaining a low student-staff ratio to individualize instruction as much as possible, and negotiation of salary scales and fringe benefits which will serve to attract and retain the best qualified teachers. Since teachers' salaries have risen steadily and have tended to cluster at the same levels throughout the State under the State's collective bargaining law, Weston faces heavier competition each year in attracting the finest teachers through salary inducements. As salary levels converge among the communities, the largest determinant of rank in per student cost becomes the staff-student ratio.

### **An Assessment of the Year**

The Committee closes the book on 1969 with some feelings of satisfaction with projects accomplished and progress achieved, and with some apprehension about the changing demands on the school system and the ability to respond appropriately. The year saw the opening of the fine new Junior High School and arrangements completed to renovate the old junior high building for elementary use. Thus, at a time when many towns are experiencing devastating over-crowding, our plant situation appears to be in good order.

The Committee perceives a good deal of zest among the staff for imparting both knowledge and enthusiasm, and even for knowing when the one must precede the other!

Weston parents and staff have cooperated with great benefit to students and to each other in the PTO and its separate sections. Room mothers and housemothers have contributed hours of work in organizing meetings, social events, and conferences to promote parent-school communication. They have been of equal service in chaperoning field trips and other events and in informing parents of school programs through newsletters, etc. Such interest and enthusiasm are invaluable assets to a school system and provide strong support for a quality operation.

Our apprehension, such as it is, is fed by the fact that larger numbers of students in Weston are affected by personal problems, often connected with drugs, alcohol, narcotics and sex. While the effect of such problems on the learning situation is very real and while pressure mounts to treat them, the public schools to date are neither organized, funded, nor charged with responsibility for doing so. This area is one of a number of challenges that carry over into the new year.

Notwithstanding, this Committee feels that Weston residents have every reason to maintain a great pride in the spirit and activities with which the Town discharges its education function.

## **REPORT OF ELEMENTARY SCHOOL REMODELING COMMITTEE**

The Elementary School Remodeling Committee was established at the Special Town Meeting in December 1968. Five members were appointed by the Moderator to this Committee. The Committee's responsibility was to obtain plans for the renovation of the old junior high school to an elementary school. The Committee met regularly with school representatives, and in February 1969 selected the architectural firm of Kubitz & Pepi to develop plans for conversion of the school.

At a Special Town Meeting in June 1969, the Committee presented several design approaches and recommended one of these as best meeting the needs of the Town for the remodeled school. The Committee was supported by the Town and the appropriation of \$710,000 was made for the remodeling and equipping of the school.

Architects plans and specifications were completed on November 1, 1969. Bids for construction were opened December 9, 1969. Ten general contractors bid on the job and the bid quotations were such that the funds voted are sufficient to complete the project. It is expected that a contract for the construction work will be awarded very shortly.

It is hoped that the remodeled school which contains 19 classrooms, a library, and art and music rooms, will be ready for occupancy by September 1970.

## REPORT OF THE WESTON WAR MEMORIAL EDUCATIONAL FUND COMMITTEE

The Weston War Memorial Educational Fund, founded in 1949 by a group of Weston High School Alumni and Friends, became a Town Trust fund by vote of the annual Town Meeting of March 23, 1953.

Its purpose is "to assist the post-secondary education of graduates of Weston High School".

This year the Committee made its first town-wide appeal for support for the Fund. The Committee gratefully acknowledges the advice and help of Mr. Daniel Siegel and a group of volunteers who made personal calls on behalf of the fund. We wish to thank Mr. Rudolf Slayter for underwriting the town-wide mailing, and Nobb Hill Press for the stickers. All contributions were acknowledged by the Committee.

Gifts to the fund are tax-deductible, and only the interest is distributed for scholarships. We hope that in the future even greater support will be given to this Town Scholarship fund.

Scholarship recipients this year were Patricia Lynn Butler and Barbara Ann Poe.

# *Libraries*

## REPORT OF THE BOARD OF LIBRARY TRUSTEES

The Weston Public Library has had a year of remarkable growth in the use of all departments. The staff and trustees felt a notable milestone had been passed when circulation topped 145,000 in 1968, but this year's jump of over 16,000 marks the greatest increase ever. This surge was felt in all categories—non-fiction, records, paperbacks, periodicals, and juvenile and young adult titles as well as adult fiction. The circulation figures for the last decade deserve notice:—

1960 —	107,384
1963 —	118,728
1965 —	139,895
1967 —	142,099
1969 —	161,748

Registered borrowers increased over 1,000 this year, bringing our active list up to roughly 6,500.

The trustees cannot refrain from saying to the Town "We told you so." Better school libraries do indeed go hand in hand with increased use of the public library.

The Regional Library System is working very well. The number of out-of-town borrowers here was small, but it is our impression that Weston residents are making fairly good use of their freedom to borrow in Wellesley and Boston on their Weston cards. We wish to point out that films may be borrowed from the Boston Public Library. The Regional Bookmobile has been popular, adding 3,000 to our circulation.

Last fall the children's department began a Picture Book program for three and four year olds, held on Tuesday mornings. Children and mothers have been delighted, and the program will continue in 1970. The summer reading club was successful as usual. Almost 200 children received certificates for reading 12 books or more from late June to August 15th. On that day over 100 attended the annual party and were entertained by Miss Ruth Hayes, coordinator of children's services at the Boston Public Library.

After twenty-four years as Custodian of the library, John A. Cain retired in March. Harvey Ouelette of Waltham was appointed to replace him.

Ronald Eames has served this year as President of the Friends of the Weston Public Library. The Friends have been active in preparing special library book displays and in aiding the Librarian in public relations and publicity.

On the debit side we must announce a series of crises due to our 70-year-old plumbing and heating arrangements. We continue to regret having to decline sizable and useful collections offered as gifts, and having to make room for new titles by weeding out many books we

would like to keep. In order to have the Picture Book program previously mentioned, we have to close the children's room to borrowers — a most undesirable arrangement. Other programs we would like to institute cannot even be considered. The inflation of book prices rivals that of meat — 1969 figures are not yet available, but in 1968 the average price for novels rose 9.4%!

But we have finished our current program of interior painting and have replaced the 70-year-old card catalogue and patched up the lawn.

The trustees and the Town stand in yearly increasing debt to our excellent staff, who put up with cramped conditions with remarkable cheer. Many have served devotedly for years, and they stay abreast of their profession by frequent attendance at professional meetings and courses. The Librarian, Richard A. Bodge, was appointed this year to serve on the Scholarship Committee of the Mass. Library Association.

We also wish to express our gratitude to the organizations and individuals who have made gifts to the library, and to the Garden Clubs for continuing to give so much pleasure to us all.

# Park and Cemetery

## REPORT OF THE PARK AND CEMETERY COMMISSION

The year 1969 was relatively favorable to our trees and shrubs. Rainfall was adequate, — even more than adequate during November and December, — and breakage by snow and ice was minimal. The dry spell in July and August did no serious harm, nor did the ice storm in January.

### PARKS

Early in the year we graded and planted the new park — South Park — at the junction of Newton Street and South Avenue, which was given to the town by Mr. Martin J. Roach. Much of the plant material that we used was donated by the Case Estates of the Arnold Arboretum. We are also indebted to Hector J. Osmond, who made the welcome sign at the park, and to Peter J. Lawson who lettered it. Children's Park where grass growth has been poor received a special application of fertilizer, which seems to have improved appearance.

### CEMETERIES

During the year we continued to enlarge Linwood Cemetery in two important areas. Easterly we graded and planted new ground in accordance with a long range plan, with the advice of Shurcliff, Merrill and Footit, Landscape Architects. Westerly we began a new section of road, which will carry the main entrance road directly to the rear area of the cemetery.

In Farmers' Burying Ground we planted a quantity of young hemlocks to serve, eventually, as a screen between that cemetery and the abutting garage area.

Below is a statement that appeared in our 1968 report:

"At a meeting on January 17, 1969 the Board reviewed the schedule of prices charged for cemetery lots and perpetual care that was established in 1963. After giving consideration to the substantial increases since 1963 in costs of land and services, and to the effect of such increases on current cemetery maintenance and on future expansion, it was decided that the following schedule of prices for lots and perpetual care would be made effective on January 1, 1970:

Plots	Lot Charge	Perpetual Care	Total
1 grave	\$ 40.00	\$110.00	\$150.00
2 "	55.00	170.00	225.00
4-5 "	115.00	335.00	450.00
6-7 "	155.00	450.00	605.00
8-9 "	185.00	565.00	750.00

"The above schedule represents increases of approximately 12%."

These rates became effective January 1, 1970.

As stated in earlier reports, the rules and regulations adopted by the town to govern both parks and cemeteries are available at

the Town Hall. All should remember that cemetery lots can be sold only to persons who are residents of Weston at the time of acquisition.

In 1969, as in earlier years, a substantial portion of our expenditures was returned to the town from our receipts as set forth below:

**Cemetery Receipts\***  
**1969**

No. of lots sold	27
Interments: Residents	20
Non-Residents	18
Total Interments	38
Receipts: Sale of Lots	\$1,825.00 (1)
Sale of Perpetual Care	5,350.00 (2)
Annual Care of Lots	212.00 (3)
Interments	2,500.00 (3)
Grave liners	30.00 (3)
Foundations	367.50 (3)
Total	<u>\$10,284.50</u>

\*All receipts were, in accordance with established practice, applied as follows:

- (1) Added to "Sale of Lots" Reserve
- (2) Added to "Perpetual Care" Fund
- (3) Paid into the Town Treasury

# *Recreation*

## REPORT OF THE RECREATION COMMISSION

Recreation programs in Weston continue to grow. This year our staff has met each new challenge with skill and energy. Summer and Winter, Spring and Fall, there are increasing demands for their attention.

Skating at Foote's Pond off Warren Avenue is now a regular concern and has been a real addition to the winter program. Little League and soft ball have shown a steady increase, and the Commission has continued its policy of assisting them to arrange an adequate number of fields.

The Recreation Commission looks forward to a number of interesting problems in the coming months. The development of a full and varied program at the new Junior High School pool is a high priority item. The problem of turbidity at the Memorial Pool must be resolved in the near future, as State regulations now require a minimum visibility of four feet. With increasing costs, the problem of proper maintenance of the properties managed by the Commission will require new approaches. These three alone indicate the need to look ahead and develop imaginative plans as the Town continues its growth.

## *Unclassified*

### REPORT OF THE WESTON-ROMBAS AFFILIATION COMMITTEE

The year 1969 has shown excellent participation in the exchange student program, reflecting the worth of the program over the two decades of the Weston-Rombas Affiliation's existence. A larger-than-usual number of applications were received from interested and well-qualified Weston students, and many town citizens opened their homes during the year to welcome all of the visiting foreign students.

Kathy Luneau left for Rombas in August aboard the "Aurelia", accompanied by Kim Kirjassoff, who had the opportunity to spend a year with the Deliens family in Ohain, Belgium. Earlier in the summer Michele Woll, the Rombas student in Weston for the 1968-1969 school year, returned to France, and Danilo Blank returned to Porto Allegre, Brazil.

The "Aurelia" brought Betsy Johnson back from her year as our young ambassador to Rombas, to attend Radcliffe College; with her came Sylvie Oueillette and Michel Nass as the Affiliation's Rombas representatives for the current school year. As part of the exchange program, which has been broadened within the last decade to include students from other countries, Regina Elnecape from the Colegio de Aplicacao, Porto Allegre, Brazil and Bruno Deliens from Ohain, Belgium are also attending Weston High School.

The visiting foreign students attended the United Nations Day dinner in October, as did Betsy Johnson, and their talks were warmly received. In December, an informal get-together for Weston High students was held in the High School library, and the four students and Betsy Johnson were present to discuss the Affiliation's program with interested Weston students.

Funds for paying transportation, insurance and incidental expenses of the students were obtained principally through the Affiliation's annual fund letter, and we wish to thank the many people who have shown their interest and support by their voluntary and generous contributions. Some additional funds have also been raised through sales of the Affiliation's notepaper. The money thus available has made it possible for our visitors to travel to the United Nations in New York and to have the opportunity to see Washington, D.C.

Much of the success of the exchange program is due to the willingness of many Weston families who have graciously extended invitations to the visiting foreign students to live with them as part of the family. The Affiliation wishes to express its sincere appreciation to the following families who were hosts during 1969:

Mr. and Mrs. Hazen M. Ackles  
Mr. and Mrs. Malcolm H. Brodrick  
Dr. and Mrs. Allan D. Callow  
Mr. and Mrs. Robert Carlson

Mr. and Mrs. John R. Carney, Jr.  
Mr. and Mrs. William B. Ferguson  
Mr. and Mrs. F. David Johnson  
Mr. and Mrs. Theodore Jones  
Mr. and Mrs. Edmond L. Kelley  
Mr. and Mrs. Gordon L. Kirjasoff  
Mr. and Mrs. John R. Luneau  
Mr. and Mrs. James P. Maynard  
Mr. and Mrs. L. Tom Perry  
Mr. and Mrs. Peter H. Richardson  
Mr. and Mrs. Norman B. Saunders  
Mr. and Mrs. Jack Stettner  
Mr. and Mrs. Edward S. Stritter  
Mr. and Mrs. Lawrence M. Tilton

## *Water Department*

### REPORT OF BOARD OF WATER COMMISSIONERS

Due to the severe snowstorms of last February, the Water Department was confronted with a massive project of digging out fire hydrants which were buried under five or six feet of snow. Temporary help and the use of Highway Department equipment enabled us successfully to complete the job.

During the year, there were many leaks in old pipes which required repair. Deteriorated copper tubing was often the cause of these leaks. This year, plastic and cement lined mains were frequently used for services in place of copper tubing.

In June and July, the Department pumped 115,555,200 gallons of water which represented more than was pumped over a comparable period in any previous year.

The installation of an 8" main on Webster Hill Road, connecting to Saddle Hill Road, greatly improved the fire protection in this area.

The meter program was continued during the year by the replacement of many old and worn out meters and should reflect favorably in the revenue from water sold.

During the year contractual arrangements were made with a local bank whereby semiannual water bills will be processed and mailed promptly after meter readings have been taken.

#### Comparative Statistics

# *Town Records, 1969 Condensed*

## ANNUAL MEETING — MARCH 29, 1969

Pursuant to a warrant duly served the annual town meeting was called to order in the lower town hall by Henry Wheeler, Moderator, at 8:00 A.M., March 29, 1969, for action on Article 1. It was unanimously voted to dispense with the reading of the warrant.

**Article 1.** To bring in their votes for the following town officers to be voted for on one ballot:

	For term of
A moderator	One year
One selectman	Three years
A treasurer and collector	One year
One assessor	Three years
One assessor (to fill vacancy)	One year
One member of the school committee	Three years
One water commissioner	Three years
Two members of the recreation commission	Three years
One member of the planning board	Five years
One library trustee	Three years
One member of the board of health	Three years
Three measurers of lumber	One year
A tree warden	One year
One commissioner of trust funds	Three years

The results of the election were as follows:

### **Moderator (for one year)**

Henry Wheeler, 29 Winsor Way, Caucus Nominee .....	379
Scattering .....	1
Blank .....	57

### **Selectman (for three years)**

Thomas W. Underhill, 65 Aberdeen Road, Caucus Nominee .....	371
Scattering .....	3
Blank .....	63

### **Assessor (for three years)**

Francis E. Vinal, 37 Baker's Hill Road, Caucus Nominee .....	381
Blank .....	56

### **Assessor (for one year — to fill vacancy)**

Gerard L. Swope, 56 Gun Club Lane, Caucus Nominee .....	372
Blank .....	65

### **School Committee (for three years)**

Jack H. Vernon, 91 Loring Road, Caucus Nominee .....	367
Scattering .....	2
Blank .....	68

### **Treasurer and Collector (for one year)**

Alice K. Dorrance, 311 Boston Post Road, Caucus Nominee .....	392
Blank .....	45

### **Library Trustee (for three years)**

A. Elizabeth Hower, 467 Concord Road, Caucus Nominee .....	386
Blank .....	51

### **Board of Health (for three years)**

David H. Reid, 65 Hidden Road, Caucus Nominee .....	393
Blank .....	44

### **Commissioner of Trust Funds (for three years)**

Charles M. Ganson, 118 Chestnut Street, Caucus Nominee .....	375
Blank .....	62

### **Measurers of Lumber (for one year)**

G. Murray Burke, 37 Wellesley Street, Caucus Nominee .....	374
Raymond E. Ogilvie, 1 Warren Place, Caucus Nominee .....	369
C. Arnold Carlson, 42 Golden Ball Road, Caucus Nominee .....	370
Blank .....	198

### **Water Commissioner (for three years)**

Richard E. Segien, 3 Kendal Common Road, Caucus Nominee ....	379
Blank .....	58

### **Planning Board (for five years)**

Hugo E. Uytterhoeven, 92 Ash Street, Caucus Nominee .....	376
Scattering .....	1
Blank .....	60

### **Tree Warden (for one year)**

David B. Pollock, 25 Warren Avenue, Caucus Nominee .....	378
Blank .....	59

### **Recreation Commission (for three years)**

Harry C. King, 245 Merriam Street, Caucus Nominee .....	215
Frederic A. Crafts, Jr., 50 Colchester Road, Caucus Nominee ....	274
Daniel G. Siegel, 50 Laurel Road, Caucus Nominee .....	262
Scattering .....	1
Blank .....	122

Henry Wheeler, Moderator, called the business meeting to order in the Auditorium of the Senior High School on March 31, 1969, at 8:05 P.M. to act on the remaining articles of the warrant. Mr. Wheeler determined and announced the presence of a quorum.

At the suggestion of Mr. Herman Koester, Jr., Chairman of the Board of Selectmen, the persons present at the meeting stood for a brief period of silence as a tribute to Dwight David Eisenhower, whose death occurred on March 28, 1969.

It was voted to dispense with the reading of the warrant.

Tellers were appointed by the Moderator and sworn to the faithful performance of their duties.

Town election results were announced by Henry Wheeler, Moderator.

The following resolutions were adopted:

**Resolved:** We, the citizens of Weston assembled in annual town meeting, take this opportunity to express to Grant M. Palmer, Jr. our heartfelt appreciation for his long, outstanding, meritorious service to our Town as counsel and behind-the-scenes advisor in all areas. Mr. Palmer has served for 22 years as the attorney for the Town and has supervised during that period the Town's adjustment to constantly changing municipal laws, guiding the Town safely through many possibilities of hazard to its interest. The countless hours Mr. Palmer has dedicated to the requirements of his office are well remembered by at least three generations of Town officials and his painstaking interest in rendering valid and equal-handed legal opinions to inquiring residents are known to hundreds of Westonites.

We, the citizens of Weston therefore take this opportunity sincerely to thank Mr. Palmer for his conscientious efforts in the interests of all of us and to wish him well for the future.

**Further resolved:** that this resolution be spread upon the records of the Town and that a copy be sent to Mr. Palmer.

**Resolved:** We, the citizens of Weston assembled in annual town meeting, take notice with profound regret that Charles H. Stimpson, Jr., Town Engineer in Weston since 1951 will retire as of May ninth of this year. We take this opportunity to express to Mr. Stimpson our unanimous appreciation for his capable and efficient services to the Town for so many years.

Mr. Stimpson will be most particularly remembered not only for his meticulous capabilities as an engineer, but for his thorough knowledge of the topography and landscape peculiarities of the Town which permitted him to render balanced and thoughtful advice not only to the boards and town officers with which he worked, but to any citizen with a problem within his field of knowledge.

In his retirement in Vermont we wish him an active and responsible life in the knowledge that he will inevitably end by serving the community of which he will become a resident as he has already served our Town.

**Further resolved:** that this resolution be spread upon the records of the Town and that a copy be sent to Mr. Stimpson.

**Resolved:** We, the citizens of Weston assembled in annual town meeting, take this occasion to express our appreciation of the faithful and able service to the Town of the following officers:

John W. Ayer, capable member of the Board of Assessors, whose resignation during 1968 is deeply regretted.

Robert G. Breck, Jr., member and chairman of the Board of Assessors, who has diligently and efficiently served the Town over a period of ten years in such office and whose experience and wise counsel have contributed largely to the capable functioning of this Board.

William G. Brown, member and secretary of the Planning Board, whose faithful attention to the affairs of this important Board has aided significantly the development of the present and future of the Town.

Floyd S. Wilson, member and chairman of the Recreation Commission, whose foresight in office will bring about needed extensions of the recreational facilities of the Town.

**Resolved:** We, the citizens of Weston assembled in annual town meeting, regretfully take notice that one of our first citizens, Edward M. Dickson, has declined reelection as a selectman and will, therefore, end one of his major Town responsibilities with this annual meeting. He will continue to act as our Town Clerk and to represent us in the General Court of the Commonwealth.

We take this opportunity to express to him our appreciation for his life long service to the Town, both as a selectman and in so many other functions as to be impossible of enumeration.

Mr. Dickson is one of the dwindling group who was born and brought up in Weston. His family had long carried forward the interests of the Town and he has through service on the Board of Selectmen and as Town Clerk not only continued in his family tradition, but added his own stamp of thoughtfulness and quiet wisdom to that record.

It is in great part due to the efforts and meticulous standards of Mr. Dickson that the Town of Weston bears its reputation as a well run and forward looking community.

**Further resolved:** that this resolution be spread upon the records of the Town and that a copy be sent to Mr. Dickson.

**Article 2.** To raise and appropriate such sums of money as may be necessary to defray the costs of government and other town charges for the current year; and to fix the salaries and compensation of elected officers of the Town for the current year.

Mr. Herman Koester, Jr. moved that the several sums of money recommended by the selectmen for appropriation in 1969 in accordance with section 5 of Article II of the by-laws, set forth in pages 35 to 57 of the annual town report for 1968, be appropriated for their respective purposes set forth on said pages, but with the following change:

Under the title "Protection of Persons and Property" on pages 39 to 41 of the town report: an item be added after Out-of-State Travel, on page 40, entitled "Indemnification of Injured Firefighters" and

that the sum of \$5,500.00 be appropriated, pursuant to clause (32) of section five of Chapter forty of the General Laws as amended, to such purposes, and that the item Total Protection of Persons and Property be increased from \$664,043.00 to \$669,543.00.

Under the title Recapitulation on page 55 of the town report: the item Appropriations Recommended increased from \$4,863,422.77 to \$4,868,922.77.

Mr. Koester's motion was carried and the appropriations voted were as follows:

#### GENERAL GOVERNMENT

Selectmen — Chairman's Salary	\$ 200.00
2nd Member's Salary	100.00
3rd Member's Salary	100.00
Expenses	630.00

**Voted (2):** That the rates per year of the salaries of the members of the board of selectmen, the town clerk, the treasurer and collector, the members of the board of assessors, the members of the board of health, and the members of the board of water commissioners be fixed, effective from January 1, 1969, in amounts equivalent to the amounts appropriated for such salaries, respectively, by previous vote under this article, that the compensation of the tree warden be fixed, effective from January 1, 1969, at the rate of \$500.00 per year plus \$8.00 per hour for time spent in supervising trimming of trees by public utilities, and that all other elected officers of the Town be unpaid.

**Voted (3):** That five persons be appointed by the moderator to serve as a Memorial Day Committee in 1969, with authority to expend for the observance of that day the sum of \$450.00 already appropriated for that purpose by previous vote under this article.

**Voted (4):** That five persons be appointed by the moderator to serve as a United Nations Day Committee in 1969, with authority to expend for the observance of that day the sum of \$250.00 already appropriated for that purpose by previous vote under this article.

**Voted (5):** That in purchasing property any allowance made for turning in other property may be applied to the purchase price.

**Article 3.** To authorize borrowing of money in anticipation of revenue and issuance and renewal or refunding of a note or notes therefor.

**Voted:** That the town treasurer, with the approval of the selectmen, be authorized to borrow from time to time in 1969 in anticipation of 1969 revenue, and to borrow from time to time in 1970 in

anticipation of 1970 revenue, to an amount not exceeding in either year the amount permitted by General Laws, chapter 44, section 4; and to issue therefor a note or notes each payable within one year from its date, and to renew or refund any note or notes given for a period of less than one year in accordance with General Laws, chapter 44, section 17.

**Article 4.** To transfer money from the overlay reserve fund to the reserve fund.

**Voted:** That the sum of \$18,000.00 be transferred from the overlay reserve fund to the reserve fund.

**Article 5.** To appropriate money from available funds for the purpose of deduction by the assessors in determining the annual assessment of taxes in the current year.

**Voted:** That this article be passed over and so disposed of.

**Article 6.** To appropriate for the support of the Public Library the dog license refund received in the current year and available money from State aid for the Public Library.

**Voted:** That the sum of \$1,746.98, being the amount of the 1969 license refund received from the treasurer of Middlesex County, and the sum of \$2,065.25 being the amount available from State aid for the Public Library, be appropriated for Libraries — Other Expenses, in addition to the amount already appropriated for that purpose by vote under Article 2.

**Article 7.** To appropriate money from available funds in anticipation of state and county reimbursement for Chapter 90 highway maintenance and construction.

**Voted:** That the sum of \$3,000.00 and \$22,200.00 be appropriated from available funds to meet that part of the cost of chapter 90 highway maintenance and chapter 90 highway construction, respectively, which falls upon the Commonwealth and Middlesex County; the reimbursements from the Commonwealth and Middlesex County to be restored upon their receipt to available funds.

**Article 8.** To appropriate money, to be provided by borrowing and/or by taxation and/or from other sources, for laying or relaying water mains, and to authorize the issuing of bonds or notes.

**Voted (1):** That the sum of \$45,000.00 be appropriated from available funds to the "Blanket Extensions" account of the water department for the use of the water commissioners for laying or relaying water mains not less than six inches but less than sixteen inches in diameter.

**Voted (2):** That the sum of \$20,000.00 be appropriated from available funds for the use of the water commissioners for laying or relaying water mains in Coburn Road, Webster Road, and Byron Road.

**Article 9.** To accept any or all of layouts of Beaver Road, Beaver Road Extension, Rockport Road, Westgate Road, Bradyll Road, Hallett Hill Road and Country Drive as public town ways made and described in orders of the selectmen adopted on March 18, 1969, on file in the office of the town clerk.

**Voted:** That the Town accept the layouts of Beaver Road, Beaver Road Extension, Rockport Road, Westgate Road, Bradyll Road, Hallett Hill Road and Country Drive as public town ways made by and described in orders of the Selectmen adopted on March 18, 1969, on file in the office of the town clerk.

**Article 10.** To accept the layout of a footway and bicycle path along and to the east of Conant Road as made and described in an order of the selectmen adopted on March 18, 1969, on file in the office of the town clerk, and to appropriate money for the construction of such footway and bicycle path.

**Voted (1):** That the Town accept the layout of a footway and bicycle path along and to the east of Conant Road as made by and described in an order of the Selectmen adopted on March 18, 1969, on file in the office of the town clerk.

Adopted by a vote of 273 in the affirmative and 29 in the negative.

**Voted (2):** That the sum of \$11,500.00 be appropriated from available funds for the use of the Selectmen for the construction of a footway and bicycle path as laid out along and to the east of Conant Road.

**Article 11.** To appropriate money for the construction of a sidewalk on Conant Road.

**Voted:** That the sum of \$6,500.00 be appropriated from available funds for the use of the Selectmen for the construction of a sidewalk in Conant Road.

**Article 12.** To appropriate money for the use of the Board of Health in connection with mental health services as authorized by Chapter 40, section 5 (40C) of the General Laws as amended.

**Voted:** That the sum of \$5,000.00 be appropriated for the use of the Board of Health in connection with mental health services as authorized by Chapter 40, Section 5 (40C) of the General Laws, as amended.

**Article 13.** To establish a committee, as authorized by Section 14 of Chapter 71 of the General Laws, as amended, to study and plan for the creation of a regional vocational school district and to appropriate money for the use and purposes of said committee.

**Voted:** That a special unpaid committee be established in accordance with the provisions of Section 14 of Chapter 71 of the General Laws, as amended, to be known as the vocational regional school dis-

strict planning committee, to consist of three members, including one member of the school committee; that the moderator appoint the members of the committee and fill any vacancies in its membership; and that the sum of \$150.00 be appropriated for the use and purposes of the committee.

**Article 14.** To appropriate money, to be provided by borrowing and/or taxation and/or from other sources, for the use of the Elementary School Remodeling Committee in remodeling, modernization and original equipping and furnishing of the present Junior High School as an elementary school, and to authorize the issuing of bonds or notes.

**Voted:** That this article be passed over and so disposed of.

**Article 15.** To appropriate additional money, to be provided by borrowing and/or by taxation and/or from other sources, for the acquisition of lands under the authority of the vote adopted under Article 20 of the warrant at the town meeting held on March 21, 1955, as amended by the first vote adopted under Article 13 of the warrant at the town meeting held on March 28, 1960, authorizing the acquisition of lands for a public domain or domains to be used as a town forest or forests, and to authorize the issuing of bonds or notes.

**Voted:** That the additional sum of \$66,666.70 be appropriated for the use of the Selectmen under authority of the vote adopted under Article 20 of the warrant at the town meeting held on March 21, 1955, as amended by the first vote adopted under Article 13 of the warrant at the town meeting held March 28, 1960 mainly for the acquisition of lands for a public domain or domains to be used as a Town forest or forests; that pursuant to such authority and this vote the Selectmen be authorized to acquire land located south of Love Lane and west of Highland Street in Weston consisting of approximately 40 acres; and that of said sum \$11,666.70 be appropriated from available revenue funds and \$55,000.00 be raised by borrowing inside the statutory limit under the authority of chapter 44 §7(2) of the General Laws, as amended, to which end the Town Treasurer, with the approval of the Selectmen, be authorized to prepare, issue, and sell bonds or notes of the Town at one time or from time to time, and to determine in conformity to law the period of the loan or loans, all particulars as to the form, issue, and sale of said bonds or notes, their annual maturities, and the rate and times of payment of interest on them.

Adopted unanimously.

**Article 16.** To authorize the acquisition by purchase for a public playground or recreation center of approximately five acres of land on or to the west of Highland Street and south of Love Lane, and to appropriate money for such acquisition.

**Voted:** That the Recreation Commission be authorized to purchase in the name and behalf of the Town for a public playground

or recreation center approximately five acres of land on or to the west of Highland Street and south of Love Lane; that said land may be purchased subject to such terms and conditions as the Recreation Commission may approve; that the Recreation Commission be authorized in the name and behalf of the Town to take any options and make any purchase and other contracts suitable to the purchase thereof; and that the sum of \$8,333.30 be appropriated from available funds for the use of the Recreation Commission for the foregoing purchase.

Adopted unanimously.

**Article 17.** To appropriate additional money for the use and expenses of the regional refuse disposal planning committee established at the Annual Town Meeting, 1967.

**Voted:** That this article be passed over and so disposed of.

**Article 18.** To authorize the board of selectmen, in accordance with Chapter 401, Acts of 1966, to include, from time to time, under the coverage of the workmen's compensation act, all elected or appointed officers of the town except the selectmen or the members of the police or fire force.

**Voted:** That the Board of Selectmen be authorized, in accordance with chapter 401, Act of 1966, to include from time to time under the coverage of the Workmen's Compensation Act (chapter 152, General Laws, as amended) all elected or appointed officers of the Town except the Selectmen or the members of the police or fire force.

**Article 19.** To appropriate money for the installation of a fire alarm system at the Jones House.

**Voted:** That this article be passed over and so disposed of.

**Article 20.** To enlarge the authority of the sewer committee established at the Annual Town Meeting, 1966, to the end that the committee be authorized to cause the construction of a sewerage system, and sewage treatment and disposal facilities for the entire Town or any part thereof.

**Voted:** That the authority of the sewer committee established at the Annual Town Meeting, 1966, be enlarged to cause the construction of a sewerage system and sewage treatment and disposal facilities for the entire Town or any part thereof.

Adopted by a vote of 173 in the affirmative and 21 in the negative.

**Article 21.** To appropriate money for the remodeling of the Town Hall and the equipment thereof.

**Voted:** That the sum of \$30,000.00 be appropriated from available funds for the use of the selectmen for the remodeling of the Town Hall and the equipment thereof.

Upon motion duly made and seconded the meeting was dissolved at 10:32 P.M.

## SPECIAL TOWN MEETING — JUNE 12, 1969

Pursuant to a warrant duly served a special town meeting was called to order in the auditorium of the Senior High School at 8:14 P.M. by Henry Wheeler, Moderator. After the Moderator had determined and announced the presence of a quorum, it was voted unanimously to dispense with the reading of the warrant.

**Article 1.** To appropriate additional money for the following purposes for the current year: Highways and Bridges — Drainage; Unclassified — Contributory Retirement Fund.

**Voted (1):** That the additional sum of \$6,000.00 be appropriated for Highways and Bridges — Drainage, for the current year, to be raised in the 1969 tax levy.

**Voted (2):** That the additional sum of \$11,285.50 be appropriated for Unclassified — Contributory Retirement Fund, for the current year, to be raised in the 1969 tax levy.

**Article 2.** To authorize or approve a petition to the General Court of the Commonwealth that it enact a special law authorizing the Board of Selectmen to appoint the Town Treasurer and Tax Collector without further action by the Town.

**Voted:** That a petition be presented by the Board of Selectmen to the General Court of the Commonwealth of Massachusetts by and on behalf of the Town Meeting of the Town of Weston requesting the General Court to enact a special law which will authorize, notwithstanding the provisions of section 1, chapter 41 of the General Laws, the Board of Selectmen to appoint the town treasurer and tax collector, which shall be a combined office; that the term for such office be one year; that this Town Meeting herewith approve such petition; and that such special law be effective upon enactment without further action by the Town.

**Article 3.** To amend the vote taken at the Special Town Meeting of December 16, 1968, establishing the elementary school remodeling committee to alter the authority of the committee to the remodeling, the reconstruction and extraordinary repair and original and/or additional equipping and furnishing of the present Junior High School as an elementary school.

**Voted:** That the vote taken at the Special Town Meeting on December 16, 1968 under Article 5 of the Warrant for such meeting, be amended by striking the authority of such committee now worded "to cause the remodeling and modernization including the original equipping and furnishing of the present Junior High School as an elementary school," and substituting instead of such language and authority the following language and authority: "to cause the remodeling, the reconstruction and extraordinary repair and original and/or additional equipping and furnishing of the present Junior

High School as an elementary school," the remainder of such vote to remain unchanged.

**Article 4.** To appropriate money, to be provided by borrowing and/or taxation and/or transfer and/or from other sources, for the use of the elementary school remodeling committee for remodeling, reconstructing, making extraordinary repairs and the original equipping and furnishing, including the cost of additional departmental equipment, of the present Junior High School as an elementary school, and to authorize the issuing of bonds or notes.

Mr. Walter H. Farrell moved that the sum of \$717,792.00 be appropriated for the use of the elementary school remodeling committee, as established in 1968 and authorized under the vote under the previous Article, for the remodeling, reconstruction and making extraordinary repairs to the present Junior High School in order to convert the said school for use as an elementary school, of which \$25,000.00 (representing the unexpended and uncommitted balance) be transferred from the appropriation made to the said committee under the vote adopted at the Special Town Meeting on December 16, 1968; that \$52,792.00 be appropriated from available revenue funds; and that subject to the approval of the Emergency Finance Board, \$640,000.00 be raised by borrowing under the authority of General Laws, chapter 44, section 7, clause 3A, as amended, to which end the town treasurer, with the approval of the selectmen, be authorized to prepare, issue and sell bonds or notes of the Town at one time or from time to time, and to determine in conformity to law the period of the loan or loans, all particulars as to the date, form, issue, and sale of said bonds or notes, their annual maturities, and the rate and times of payment of interest on them.

Mr. Farrell's motion was seconded. After discussion Mr. Russell N. Cox moved that Mr. Farrell's motion be amended by reducing the figure \$717,792.00 to \$617,792.00; that the figure \$52,792.00, to be appropriated from available revenue funds be reduced to \$42,792.00; and that the figure \$640,000.00 to be raised by borrowing be reduced to \$550,000.00.

Mr. Louis J. Roehr moved that Mr. Cox's motion be amended by reducing the figure \$617,792.00 to \$467,792.00; that the figure \$42,792.00 to be appropriated from available revenue funds remain unchanged and that the figure \$550,000.00 to be raised by borrowing be reduced to \$400,000.00.

After further discussion, Mr. Roehr's amendment to Mr. Cox's amendment was defeated by a vote of 149 yes, 281 no.

Mr. Thomas W. Scott moved to reduce the appropriation to \$50,000.00 for a further study. Mr. Cox did not accept this amendment and the motion was withdrawn by the proposer.

Mr. Norman B. Saunders moved that Mr. Cox's motion be amended by reducing the figure \$617,792.00 to \$517,792; that the figure \$42,792.00 to be appropriated from available revenue funds remain

unchanged and that the figure \$550,000.00 to be raised by borrowing be reduced to \$450,000.00.

Mr. Cox did not accept this amendment. A motion made and seconded for the previous question was carried unanimously. Mr. Saunders amendment did not carry.

Mr. Cox's motion was carried by voice vote.

A motion for the previous question duly made and seconded was adopted by a two-thirds vote declared by the Moderator. The vote on Mr. Farrell's motion as amended was as follows: yes — 351; no — 46. As adopted this vote is as follows:

**Voted (1):** That the sum of \$617,792.00 be appropriated for the use of the elementary school remodeling committee, as established in 1968 and authorized under the vote under the previous Article, for the remodeling, reconstruction and making extraordinary repairs to the present Junior High School in order to convert the said school for use as an elementary school, of which \$25,000.00 (representing the unexpended and uncommitted balance) be transferred from the appropriation made to the said committee under the vote adopted at the Special Town Meeting on December 16, 1968; that \$42,792.00 be appropriated from available revenue funds; and that subject to the approval of the Emergency Finance Board, \$550,000.00 be raised by borrowing under the authority of General Laws, chapter 44, section 7, clause 3A, as amended, to which end the town treasurer with the approval of the selectmen, be authorized to prepare, issue and sell bonds or notes of the Town at one time or from time to time, and to determine in conformity to law the period of the loan or loans, all particulars as to the date, form, issue, and sale of said bonds or notes, their annual maturities, and the rate and times of payment of interest on them.

Adopted by a vote of 351 in the affirmative and 46 in the negative.

**Voted (2)** unanimously: That the sum of \$72,708.00 be appropriated for the use of the elementary school remodeling committee, as established in 1968 and authorized under the vote under the previous Article, for the purchase of additional departmental equipment to be used in the conversion of the present Junior High School for use as an elementary school, of which \$7,708.00 be raised in the 1969 tax levy and \$65,000.00 be raised by borrowing under the authority of General Laws, chapter 44, section 7, clause 9, as amended, to which end the town treasurer, with the approval of the selectmen, be authorized to prepare, issue and sell bonds or notes of the Town at one time or from time to time, and to determine in conformity to law the period of the loan or loans, all particulars as to the date, form, issue, and sale of said bonds or notes, their annual maturities and the rate and times of payment of interest on them.

**Voted (3):** That the sum of \$19,500.00 be appropriated for the use of the elementary school remodeling committee, as established

in 1968 and authorized under the vote under the previous article, for the original equipping and furnishing of the present Junior High School as an elementary school to be raised in the 1969 tax levy.

**Voted (4):** That the elementary school remodeling committee, as established in 1968 and authorized under the vote under the previous Article make application as soon as appropriate to the School Building Assistance Bureau for reimbursement to the Town of any or all of the sums appropriated to the use of the Committee under this Article.

Upon motion duly made and seconded the meeting was dissolved at 11:32 P.M.

\* \* \*

The following special law was enacted by the General Court and approved by the Acting Governor August 7, 1969.

#### Chapter 642

AN ACT combining the offices of the town treasurer and tax collector of the Town of Weston into the office of town treasurer and collector.

**Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:**

**SECTION 1.** Notwithstanding the provisions of any law, the offices of town treasurer and tax collector of the town of Weston shall, in accordance with the vote of said town under article two of the special town meeting held June twelfth, nineteen hundred and sixty-nine, be merged into one office called town treasurer and collector and the powers and duties formerly exercised by the town treasurer and the tax collector shall be exercised by said town treasurer and collector.

**SECTION 2.** The board of selectmen of the town of Weston shall appoint, regardless of residence, the town treasurer and collector for a term of one year.

**SECTION 3.** Upon the appointment and qualification of said town treasurer and collector as provided in section two, the terms of office of the persons holding the offices of town treasurer and tax collector, respectively, shall cease and terminate and the provisions of law relative to town treasurers and to collector of taxes shall, except insofar as the same may be inconsistent with the provisions of this act, apply to said town treasurer and collector.

**SECTION 4.** This act shall take effect upon its passage.

\* \* \*

#### SPECIAL TOWN MEETING — DECEMBER 15, 1969

Pursuant to a warrant duly served a special town meeting was called to order in the auditorium of the Senior High School at 8:09 P.M. on December 15, 1969 by Henry Wheeler, Moderator. After

the Moderator had determined and announced the presence of a quorum he obtained unanimous consent to dispense with the reading of the warrant.

The meeting was held in both the Senior High School Auditorium and the Senior High School gymnasium which were connected by a public address system and loud speakers. The Moderator appointed William B. Tyler Assistant Moderator to preside in the gymnasium.

**Article 1.** To appropriate additional money for the following purposes for the current year: Protection of Persons and Property, Police Department—Salaries; Protection of Persons and Property, Fire Department—Salaries.

**Voted (1):** That the additional sum of \$4,500.00 be appropriated from available funds for the current year for Protection of Persons and Property, Fire Department—Salaries.

**Voted (2):** That the additional sum of \$3,500.00 be appropriated from available funds for the current year for Protection of Persons and Property, Police Department—Salaries.

**Article 2.** To appropriate money for the remainder of 1969 and for 1970 until the date of the annual appropriation for the use and purpose of the Historical Commission established by the first vote adopted under Article 4 of the Warrant at the Special Town Meeting held December 16, 1968.

**Voted:** That the sum of \$500.00 be appropriated from available funds for the remainder of 1969 and for 1970 until the date of the annual appropriation for the use and purpose of the Historical Commission established by the first vote adopted under Article 4 of the Warrant at the Special Town Meeting held December 16, 1968.

**Article 3.** To appropriate money for the current year for the compensation and expenses of the dog officers of the Town.

**Voted:** That the sum of \$400.00 be appropriated from available funds for the current year for the compensation and expenses of the dog officers of the Town.

**Article 4.** To appropriate additional money for the use and purposes of the Special Building Code Study Committee established by the vote adopted under Article 25 of the Warrant at the Adjourned Annual Town Meeting held April 4, 1966.

**Voted:** That the sum of \$3,700.00 be appropriated from available funds for the use of the Special Building Code Study Committee established by the vote adopted under Article 25 of the Warrant at the Adjourned Annual Town Meeting held April 4, 1966.

**Article 5.** To amend the zoning by-law, Article VIII of the by-laws as amended, substantially as follows:

(1) By adding to Section II "GENERAL DEFINITIONS" thereof the following new subsections:

K. **MULTIPLE DWELLING:** A building containing at least four and not more than eight multiple dwelling units providing independent living facilities, including an apartment house, group houses, and row houses.

L. **MULTIPLE DWELLING UNIT:** A suite of two or more rooms that is designed for and not occupied by more than one family or, if not a family, not more than four persons doing its or their own cooking therein and having only one kitchen facility located within the suite.

M. **BUILDING COVERAGE:** The area covered by the foundation of a building together with any overhang of any part of the building extending beyond the foundation excepting roofs.

N. **GARAGES** (in multiple dwelling districts): Roofed structures or carports rented to or used by residents of a multiple dwelling unit. Such structures may be attached to or separate from the multiple dwelling buildings.

(2) By deleting under Section IV "ESTABLISHMENT OF DISTRICTS" Subsection A "DESIGNATION" thereof and substituting therefor the following new Subsection A:

A. **DESIGNATION.** For the purposes of this by-law the Town is hereby divided into the following classes of districts to be known as:

1. Single family residence districts A
2. Single family residence districts B
3. Single family residence districts C
4. Single family residence districts D
5. Business districts A
6. Business districts B
7. Limited industrial districts
8. Multiple dwelling districts.

The location and boundaries of all districts are shown (or will be shown when legally amended) on a map on file in the office of the town clerk entitled "Zoning Map Town of Weston, Massachusetts, as amended 1954," which, together with all explanatory matter, boundary lines and designations, is hereby made a part of this by-law.

(3) By deleting from Section V "USE REGULATIONS" thereof, the title of Subsection A "ALL RESIDENCE DISTRICTS" and substituting therefor a new Subsection A title as follows:

A. **SINGLE FAMILY RESIDENCE DISTRICTS**

(4) By adding to Section V "USE REGULATIONS" thereof the following new Subsection H:

H. **MULTIPLE DWELLING DISTRICTS**

1. All land in multiple dwelling districts may be used for one or more of the following purposes:

- a. Multiple dwellings
- b. Church or other religious purpose
- c. Educational purpose
- d. Public purpose including municipal purpose
- e. Open spaces required with any of the above
- f. Any use which is incidental or accessory to the foregoing and which is a use of the owner or occupant.

2. A multiple dwelling unit may be used for the residence of an individual, not more than four individuals living together, or one family.

(5) By deleting from Section VI "SIZE OF LOTS, LOCATION AND HEIGHT OF BUILDINGS: MEASUREMENT REQUIREMENTS" thereof, the title of Subsection C "RESIDENCE DISTRICTS" and substituting therefor a new Subsection C title as follows:

#### C. SINGLE FAMILY RESIDENCE DISTRICTS

and adding before the words "residence districts" where they appear in said Subsection C, the words "single family."

(6) By deleting from Section VI "SIZE OF LOTS, LOCATION AND HEIGHT OF BUILDINGS: MEASUREMENT REQUIREMENTS" Subsection G "NUMBER AND LOCATION OF DWELLINGS ON ONE LOT" thereof and substituting therefor a new subsection G as follows:

G. NUMBER AND LOCATION OF DWELLINGS ON ONE LOT IN OTHER THAN MULTIPLE DWELLING DISTRICTS. In other than multiple dwelling districts the number and location of dwellings (dwellings in this subsection including accessory buildings) on any one lot shall be such that every dwelling thereon can be provided with sufficient land to form a separate lot which will itself be in full conformity to the regulations of this section and on which that dwelling will be in full conformity thereto; and in other than multiple dwelling districts, upon alienation of any dwelling it shall be provided with such a lot and every remaining dwelling on the original lot shall be left capable of being provided therewith.

(7) By adding to Section VI "SIZE OF LOTS, LOCATION AND HEIGHT OF BUILDINGS: MEASUREMENT REQUIREMENTS" thereof the following new Subsection H:

#### H. MULTIPLE DWELLING DISTRICTS

1. No lot to be used for multiple dwellings shall contain less than 600,000 square feet of land nor have less than 100 feet continuous frontage on a public way.

2. A minimum of 10,000 square feet of land area shall be required for each multiple dwelling unit.

3. The aggregate of all dwelling structures in multiple dwelling districts shall not cover more than 20% of the lot upon

which they are built. The aggregate of all structures and off-street parking areas, whether or not covered, in multiple dwelling districts shall not cover more than 30% of the lot upon which they are built or located.

4. No garage structure shall measure more than 100 feet in length and no other building shall measure more than 250 feet in length. No garage structure shall exceed a height from the ground of one story. All buildings shall be separated from other buildings by a distance of 25 feet, and a garage shall be considered as part of such building if attached.

5. The lot upon which multiple dwellings are constructed shall be supplied with a septic or sewerage system or systems acceptable to the Board of Health and with Town water and adequate street lighting. Suitable fire alarm and police call boxes in sufficient numbers to afford health, fire and police protection for the residents of the multiple dwelling units shall be provided.

6. No multiple dwelling shall contain less than four or more than eight multiple dwelling units and no such unit shall contain a floor area of living space of less than 750 square feet.

7. Utility space and other space not used for living purposes, roofs, balconies and porches shall not be used in determining living space but balconies and porches shall be used in determining building coverage.

8. Each multiple dwelling unit shall contain cooking and bathroom facilities.

9. All roads (as opposed to driveways serving multiple dwellings) providing access to or constructed in a multiple dwelling district shall be at least 50 feet in width of which at least 24 feet shall be paved, shall provide for a sidewalk at least 5 feet wide within such width on one side of such road and shall be constructed in such a manner as will permit its acceptance as a public way. The grading, surfacing and drainage of such roads shall be approved by the Weston Planning Board. All such roads, or their exterior lines, shall be entered on the official Town of Weston Map, in accordance with law, duly certified to by the town clerk and filed at Middlesex Registry of Deeds, before any multiple dwellings may be permitted to be built having access to such roads.

10. The main access road or roads to a multiple dwelling district shall enter and exit from a public way and shall be at least 25 feet from the property lines of any adjacent lot or lots of a district other than a multiple dwelling district. Each such 25 foot buffer strip shall be either landscaped or left in its natural state.

11. Any structure or structures, other than fences, erected on such lot shall be at least 65 feet from the sideline of the public way on which the lot or tract abuts.

12. A strip not less than 25 feet in width shall be maintained in its natural state, or landscaped, around the perimeter of the lot or tract upon which the multiple dwellings are built.

13. Except for fences, no part of any multiple dwelling structure or accessory building or other structure shall be built within 65 feet of the lot line of the lot upon which it is built, except that garage structures may be built no closer than 45 feet to the lot line. All structures shall be at least 20 feet from the side line of any road located in the lot and at least 45 feet from the center line of such road.

14. All utilities to be utilized in connection with the multiple dwelling units shall be installed under the surface of the ground.

Mr. Harold B. Willis moved that the zoning by-law, Article VIII of the by-laws as amended, be further amended as set forth in Article 5 of the Warrant for this meeting except that in the third sentence of subparagraph 4 under Section VI, Subsection H. MULTIPLE DWELLING DISTRICTS, the words "at least" be inserted after the word "of" and before the words "25 feet" so that said sentence will read: "All buildings shall be separated from other buildings by a distance of at least 25 feet, and a garage shall be considered as part of such building if attached."

Mr. Philip D. Stevenson read and filed with the Town the following report:

December 15, 1969

Henry Wheeler, Esq.  
Moderator  
Weston Town House  
Weston, Massachusetts 02193  
Dear Sir:

In accordance with General Laws, Chapter 40A, Section 6, as amended, the Weston Planning Board hereby submits to the Weston Town Meeting its final report respecting a proposal on which the Board held a public hearing on November 18, 1969, after publication of notice in the Waltham News Tribune on October 31 and November 7, 1969, to amend the zoning by-law, Article VIII of the by-laws, to create a new zoning district to be known as a multiple dwelling district and to amend the "Zoning Map, Town of Weston, Mass. as amended 1954" by changing from Residence Districts B and D to Multiple Dwelling District a parcel of land, roughly triangular in shape, to the west of Concord Road and south of the Boston and Maine Railroad (Central Mass. Division).

#### **Material Facts Found by the Board**

1. There is presently no provision in the zoning by-law permitting residences other than single family residences.
2. The proposal would create a "Multiple Dwelling District" in which

the land so zoned could be used for the construction of apartments, town houses, and other forms of dwellings in which several persons or families may live.

3. The proposed amendment specifies setbacks from lot lines that are more stringent than those required in Residence District A. It also requires minimum setbacks from roads and a buffer strip.
4. Other requirements and limitations imposed by the proposed amendment are as follows:

The density of dwelling units is limited to an average of four per acre; building coverage is limited to 20%, with building coverage plus parking limited to 30%; dwelling structures must contain not less than four nor more than eight units; and the lot upon which multiple dwelling units may be constructed must contain at least 600,000 sq. ft. of land.

5. The parcel proposed for rezoning is:
  - a. vacant land consisting of 26.8 acres in area, of which approximately 2/3 is located in Residence District B, and approximately 1/3 in Residence District D;
  - b. now or recently in the ownership of Hannah B. Wilkinson, Harold B. Willis, Jr., and Andrew F. Willis;
  - c. bounded by residences (located in Residence District D) on the south and west, vacant land (located in Residence District B) on the east, and the Boston and Maine Railroad (Central Mass. Division), on the north;
  - d. approximately 800 yards from Weston Center;
  - e. proposed for Multiple Dwelling use in the Master Plan prepared by Mr. Charles Downe in 1965.
6. Sewage disposal must be approved by the public health authorities.
7. The Town of Weston is part of the metropolitan area of Greater Boston.

#### **Opinions and Recommendations:**

1. The proposal meets the desires expressed by some residents of the Town for apartments in Weston in which to live.
2. The proposal meets the statutory requirements for zoning; namely, promoting the health, safety, convenience, and morals or welfare of the inhabitants of the Town.
3. The specifications regulating lot size, dwelling unit density, building coverage, parking coverage, setbacks from lot line and road layout, are consistent with the low density and residential character of the Town as a whole.
4. The proposed development of this parcel as compared with the development of this area as Residence Districts B and D is not considered to present any significant adverse effect on the Town in the way of tax base, utilities, or school services.
5. The proposed change to the by-law provides appropriate safe-

guards so that the value of other properties in the Town will not be adversely affected.

6. Since the proposed change places only one area in the multiple dwelling category, the Town will have a chance to approve or disapprove at Town Meeting any subsequent proposal to have any land in Weston placed in the multiple dwelling district.
7. The site in question is exceptionally well suited for multiple dwellings.
8. Good planning for a town situated in the metropolitan area of Greater Boston demands that in formulating local policies some consideration must be given to the needs of the metropolitan area as a whole. There is a need for multiple housing in this area. The present proposal helps to meet both metropolitan and local needs while continuing the general character of the Town.
9. The Planning Board recommends that the proposal be accepted.

Respectfully submitted,  
Paul P. Brontas  
Philip D. Stevenson  
L. Whitman Smith  
Hugo Uytterhoeven  
William A. Elliston, Chairman  
WESTON PLANNING BOARD

After discussion Mr. Norman B. Saunders moved that Mr. Willis' motion be amended by changing the proposed new paragraph 3 of Subsection H. of Section VI, to read as follows:

"3. The aggregate of all dwelling structures in multiple dwelling districts shall not cover more than 8% of the lot upon which they are built. The aggregate of all structures and off-street parking areas, whether or not covered, in multiple dwelling districts shall not cover more than 10% of the lot upon which they are built or located."

After further discussion Mr. Saunders' motion was defeated; the vote was: yes — 202; no — 583.

A motion duly made and seconded for the previous question was adopted by a vote of 617 in the affirmative and 190 in the negative.

Mr. Willis' motion was adopted by the following vote: yes — 582; no — 264.

**Voted:** That the zoning by-law, Article VIII of the by-laws as amended, be further amended as set forth in Article 5 of the Warrant for this meeting except that in the third sentence of subparagraph 4 under Section VI, Subsection H. MULTIPLE DWELLING DISTRICTS, the words "at least" be inserted after the word "of" and before the words "25 feet" so that said sentence will read: "All buildings shall be separated from other buildings by a distance of at least 25 feet, and a garage shall be considered as part of such building if attached."

**Article 6.** To amend the zoning map on file in the office of the town clerk entitled "Zoning Map, Town of Weston, Massachusetts,

as amended 1954" and constituting a part of the zoning by-law, Article VIII of the by-laws, by changing from Residence District B and Residence District D to Multiple Dwelling District a parcel of land bounded and described as follows:

A parcel lying on the southwesterly side of Concord Road, northwest of the Boston Post Road, starting at the point of intersection of the southern boundary line of the Boston and Maine Railroad and the western boundary line of Concord Road; thence south 11 degrees, 37 minutes, 10 seconds east two hundred twenty-three (223) feet; thence at right angles south 73 degrees, 26 minutes, 10 seconds west seventy-two (72) feet; thence south 10 degrees, 26 minutes, 10 seconds west three hundred twenty-five (325) feet; thence at right angles south 79 degrees, 33 minutes, 55 seconds east two hundred five (205) feet, more or less, to the western boundary line of Concord Road (at a point six hundred ten (610) feet, more or less, along the western boundary line of the easement west of Concord Road from the point of beginning); thence southerly along said Concord Road one hundred five (105) feet, more or less; thence north 79 degrees, 33 minutes, 50 seconds west two hundred fifty (250) feet, more or less; thence south 11 degrees, 33 minutes, 50 seconds east six hundred seventy (670) feet, more or less; to the northern boundary line of the land now or formerly of S. D. Bush; thence with Bush's line south 88 degrees, 27 minutes, 40 seconds west three hundred fifteen (315) feet, more or less; thence north 1 degree, 44 minutes, 30 seconds west two hundred thirteen and 31/100 (213.31) feet; thence south 68 degrees, 46 minutes, 40 seconds west three hundred thirty-five and 20/100 (335.20) feet; thence north 12 degrees, 23 minutes, 20 seconds west two hundred six and 34/100 (206.34) feet; thence north 65 degrees, 22 minutes, 00 seconds west two hundred twelve and 35/100 (212.35) feet; thence north 31 degrees, 18 minutes, 30 seconds east eighteen (18) feet, more or less; thence north 58 degrees, 54 minutes, 00 seconds west two hundred forty-six and 59/100 (246.59) feet; thence north 59 degrees, 19 minutes, 30 seconds west four hundred ninety-seven and 55/100 (497.55) feet to an iron pipe; thence continuing along the same line ten (10) feet to Cherry Brook; thence northerly along Cherry Brook two hundred ninety-five (295) feet, more or less, to the southern boundary line of the Boston and Maine Railroad; thence south 88 degrees, 34 minutes, 20 seconds east fifty-four and 53/100 (54.53) feet; thence continuing in an easterly direction along an arc with a radius of two thousand nine hundred fifty-four and 74/100 (2,954.74) feet, a distance of eight hundred fourteen and 37/100 (814.37) feet; thence north 75 degrees, 38 minutes, 10 seconds east six hundred seventy-seven and 29/100 (677.29) feet, more or less to the point of beginning.

**Voted:** That the zoning map on file in the office of the Town Clerk entitled "Zoning Map, Town of Weston, Massachusetts, as amended 1954" and constituting a part of the zoning by-law, Article VIII of the By-Laws, be amended by changing from Residence District B and Residence District D to Multiple Dwelling District the

parcel of land described in Article 6 of the Warrant for this meeting.

**Article 7.** To appropriate money to provide for cooperation with the federal government in a project of direct or indirect benefit to the Town or its inhabitants by establishing a Youth Resources Board in cooperation with Waltham and Watertown.

**Voted:** That the sum of \$1500.00 be appropriated from available funds for the use of the selectmen to provide for cooperation with the federal government in a project of direct or indirect benefit to the Town or its inhabitants by establishing a Youth Resources Board in cooperation with Waltham and Watertown.

**Article 8.** To appropriate money for the use of the Recreation Commission for engineering and consulting services and expenses in connection with providing outdoor swimming facilities for the Town.

**Voted:** That this article be passed over and so disposed of.

**Article 9.** To appropriate additional money for the use of the Elementary School Remodeling Committee established in 1968 and authorized by the vote under Article 3 of the Special Town Meeting held June 12, 1969, for the remodeling, reconstruction and making extraordinary repairs to the then Junior High School in order to convert the said school for use as an elementary school.

**Voted:** That this article be passed over and so disposed of.

Upon motion duly made and seconded the meeting was dissolved at 12:15 A.M., December 16, 1969.

**THE FOLLOWING SELECTED VOTES WERE ADOPTED  
BY THE BOARD OF SELECTMEN IN 1969**

**January 2, 1969:**

**Voted** to accept the proposal of The Lexington Press, Inc., Lexington, Mass., dated, December 27, 1968, submitted pursuant to Notice to Bidders advertised December 19, 1968, in The News-Tribune, Waltham, Mass., for printing the 1968 Weston Town Report at the unit prices set forth in the proposal for an estimated cost of \$3,939.31 based on the number of pages, at each price, assumed for bid comparison purposes only.

**January 28, 1969:**

The board considered laying out Rockport Road, Westgate Road, Beaver Road, Country Drive, Bradyll Road and Hallett Hill Road as public town ways in whole or in part.

**Voted** that written notices of intention to make such layouts and of hearings to be held thereon at the Town Hall on Saturday, March 1, 1969, be served by a police officer on behalf of the board.

The board considered laying out a footway and bicycle path along the east side of Conant Road.

**Voted** that written notice of intention to make such layout and of a hearing to be held thereon at the Town Hall on Saturday, March 1, 1969, be served by a police officer on behalf of the board.

**February 4, 1969:**

**Voted** to accept the proposal of Pigeon Hollow Spar Co., Quincy Mass., dated February 3, 1969, submitted pursuant to Notice to Bidders advertised January 22, 1969, in The News-Tribune, Waltham, Mass., for furnishing and delivering new single piece Douglas fir flagpole for installation at Weston Town Hall for the sum of \$6,295. This was the sole bid received pursuant to advertising.

**March 1, 1969:**

Pursuant to notices issued under date of February 20, 1969, the board held hearings at the Town Hall on the proposed layouts of Beaver Road, Beaver Road Extension, Rockport Road, Westgate Road, Bradyll Road, Hallett Hill Road and Country Drive and on the proposed layout of a footway and bicycle path along the east side of Conant Road.

**March 18, 1969:**

**Voted** to adopt and sign the warrant for the annual town meeting to be held on Saturday, March 29, 1969, to act on Article 1, and on Monday, March 31, 1969, to act on the remaining articles and that attested copies thereof be posted at the Town Hall, at the Kendal Green railroad station and on the town bulletin board at the north driveway to Weston High School on Wellesley Street. The warrant was accordingly signed.

A report having been received from the Planning Board concerning proposed layouts of Beaver Road, Beaver Road Extension, Rock-

port Road, Westgate Road, Bradyll Road, Hallett Hill Road and Country Drive, it was **voted** to adopt, sign, and file in the office of the town clerk six layout orders for such ways and the plans made a part of the orders.

A report having been received from the Planning Board concerning the proposed footway and bicycle path along the east side of Conant Road, it was **voted** to adopt, sign and file in the office of the town clerk a layout order for such footway and bicycle path and the plan made a part of the order.

**Voted** to authorize acceptance of a proposal by Wilbur Smith and Associates, Inc. to perform consulting services in connection with the work of the Committee on Safety and Flow of Pedestrian and Vehicular Traffic.

**Voted** to determine that public convenience requires a sidewalk in Conant Road on the north side of the railroad bridge and to establish such a sidewalk upon such determination, specifying the grade and materials as may be recommended by the Town Engineer.

**April 2, 1969:**

**Voted** that the Town Treasurer with the approval of the Selectmen borrow \$500,000 by the issue and sale of notes in anticipation of revenue as authorized by vote of the annual town meeting held on March 31, 1969, under Article 3.

Further **voted** that one note in the amount of \$500,000, authorized to be issued by vote of the Selectmen earlier in this meeting, shall be issued, shall be dated April 17, 1969, shall mature November 3, 1969, that the interest rate shall be fixed at 4.19 per cent per annum discounted at date of issue and that the Director of Accounts of the Bureau of Accounts of the Commonwealth shall certify as to the genuineness of said note.

Further **voted** to approve the sale of said note to Newton-Waltham Bank and Trust Company at par less interest discounted plus premium of \$1.00 and that the Town Treasurer be and she hereby is authorized to deliver said note to the aforesaid purchaser. Further **voted** to sign the said note (No. 497) which was accordingly signed.

**April 22, 1969:**

**Voted** to accept the proposal of West End Chevrolet, Inc., of Waltham, Mass., dated April 22, 1969, submitted pursuant to notice to bidders advertised in The News-Tribune, Waltham, Mass., April 11, 1969, for furnishing in accordance with Notice to Bidders, Information and Instructions, Specifications and Proposal form three new 1969 Chevrolet station wagons, model 15436, for use in the Police Department for the sum of \$8,666.28 less trade-in allowance of \$2,235.00 for three used 1968 Biscayne model Chevrolet station wagons, making a net cost to the Town of Weston of \$6,431.28. This was the sole bid received pursuant to advertising.

**April 29, 1969:**

The Board of Selectmen considered orders of taking in connection with Beaver Road, Beaver Road Extension, Rockport Road, Westgate Road, Bradyll Road, Hallett Hill Road, and Country Drive, layouts of which were accepted at the annual town meeting, and an order of taking in connection with a footway and bicycle path along and to the east of Conant Road, a layout of which was accepted at the annual town meeting.

**Voted** to adopt and sign the seven orders of taking relative to the roads and to file them in the office of the town clerk.

**Voted** to adopt and sign the order of taking relative to the footway and bicycle path and to file it in the office of the Town clerk; Mr. Herman Koester, Jr. did not participate in the adoption of the vote or the signing of said order of taking.

**Further voted** that within thirty days the Town Counsel record and register at the Registry of Deeds certified copies of the eight orders of taking and of the plans made part thereof. The documents were accordingly signed.

**Voted** that effective May 10, 1969 the town dump at Kendal Green shall be closed to the public at 4:45 P.M.

**May 20, 1969:**

**Voted** that the Town Treasurer with the approval of the Selectmen borrow \$500,000 by the issue and sale of notes in anticipation of revenue as authorized by vote of the annual town meeting held on March 31, 1969, under Article 3.

**Further voted** that one note in the amount of \$500,000 authorized by vote of the Selectmen earlier in this meeting, shall be issued, shall be dated June 10, 1969, shall mature November 7, 1969, that the interest rate shall be fixed at 4.24 per cent per annum discounted at the date of issue and that the Director of Accounts of the Bureau of Accounts of the Commonwealth shall certify as to the genuineness of the said note.

**Further voted** to approve the sale of said note to Newton-Waltham Bank and Trust Company at par less interest discounted and that the Town Treasurer be and she hereby is authorized to deliver said note to the aforesaid purchaser.

**Further voted** to sign the said note (No. 498) which was accordingly signed.

**June 3, 1969:**

**Voted** to adopt and sign the warrant for a special town meeting to be held on June 12, 1969, and that attested copies thereof be posted at the Town Hall, at the Kendal Green railroad station and on the town bulletin board at the north entrance of the Weston High School on Wellesley Street. The warrant was signed accordingly.

**Voted** to accept the proposal of Casey & Dupuis Equipment Corporation, Watertown, Mass., dated May 29, 1969, submitted pursuant to notice to bidders advertised May 21, 1969, in The News-Tribune, Waltham, Mass. for furnishing in accordance with Notice to Bidders, Information and Instructions, Specifications and Proposal form one new 1969 Wayne Model 1-984 street sweeper for the sum of \$10,770.00 and to accept alternate No. 1 of the proposal for furnishing an air purifier and pressurizer Model GG-10 as manufactured by G. & G. Engineering Corp. for the additional sum of \$320.00, the unit to be installed in the cab of the street sweeper complete with bubble window. The total cost to the Town of Weston is \$11,090.

**June 24, 1969:**

Upon recommendation of Committee on Safety and Flow of Pedestrian and Vehicular Traffic, **voted** to ask the Department of Public Works for permission to participate in the so-called TOPICS program sponsored by the Federal government under the full title Traffic Operations Program to Increase Capacity and Safety.

**July 22, 1969:**

**Voted** to approve and sign and signed accordingly Memorandum of Agreement with State Department of Public Works in the amount of \$1,500.00 for Chapter 90 Maintenance work on South Avenue and Wellesley Street.

**Voted** to accept the proposal of Getty Oil Company dated July 21, 1969, submitted pursuant to notice to bidders advertised July 14, 1969, in The News-Tribune, Waltham, Mass., for furnishing for the year ending June 30, 1970, either premium grade Flying A gasoline at \$.025 per gallon above the major companies posted commercial consumers' tank wagon price for regular grade gasoline in the Boston market less a firm increment of \$.0650 per gallon plus Commonwealth of Massachusetts tax of \$.065 per gallon, or regular grade Flying A gasoline at the major companies posted commercial consumers' tank wagon price for the Boston market less a firm increment of \$.0600 per gallon plus Commonwealth of Massachusetts tax of \$.065 per gallon.

**Voted** to accept the proposal of Massachusetts Broken Stone Company, Weston, Mass., dated July 11, 1969, submitted pursuant to notice to bidders advertised July 3, 1969, in The News-Tribune, Waltham, Mass. for furnishing bituminous concrete mix for highway purposes for the unit prices of \$5.75 per net ton at the supplier's plant and \$6.35 per net ton delivered to various locations in Weston. This was the lowest bid received pursuant to advertising. Further **voted** to authorize the preparation of contract and forwarding to the company for execution.

**August 5, 1969:**

**Voted** to accept the proposal of Union Oil Company of Boston dated July 21, 1969, submitted pursuant to notice to bidders advertised

July 18, 1969, in The News-Tribune, Waltham, Mass., for furnishing fuels for town buildings for the heating season ending June 30, 1970 at the prices indicated below.

a. No. 2 fuel oil at the posted tank car price for the Boston market as published in the New York Journal of Commerce for the day of delivery plus a firm increment of \$.0112 per gallon.

b. No. 4 fuel oil at the Net Low Terminal Rack Price for No. 5 fuel oil for Boston Harbor as posted in Platt's Oilgram Price Service, N. Y. edition, on date of delivery less a firm increment of \$.152 per barrel.

c. No. 5 fuel oil at the Net Low Terminal Rack Price for No. 5 fuel oil for Boston Harbor as posted in Platt's Oilgram Price Service, N. Y. edition, on date of delivery less a firm increment of \$.452 per barrel.

This was the lowest net bid for each grade of fuel oil received pursuant to advertising.

#### **August 12, 1969:**

**Voted** to authorize two additional employees in the Town Offices to sign liquor identification cards as agents for the Board of Selectmen: Ruth S. Jenkins and Doris E. Shorey.

#### **September 23, 1969:**

The board of selectmen considered the sole proposal received pursuant to Invitation to Bidders advertised September 15, 1969, in The News Tribune, Waltham, Mass. for construction of a metal building at Kendal Green sanitary landfill site. **Voted** to reject the sole bid received since it exceeded the appropriation available for the project. Further **voted** to re-advertise the project for later bid date.

#### **September 30, 1969:**

**Voted** to approve and sign change order and extra work order to contract between J. S. Hays Co., Inc., and Town of Weston for construction of sidewalk in Wellesley Street. Additional work at unit prices included in the contract was authorized in the amount of \$9,307.75 and additional work at negotiated price of \$250.00 was authorized; the total contract price was increased to \$66,787.75. The change order was accordingly signed.

Further **voted** to adopt and sign a certificate in compliance with General Laws, Chapter 30, Section 391 relative to changes authorized in the work. The certificate was accordingly signed.

#### **October 14, 1969:**

The Board of Selectmen having received the recommendation of the Department of Public Works that the bid of A. R. Belli, Inc., of Newtonville, Mass. be accepted as the lowest bid received for reconstruction of a section of Wellesley Street under agreements with the Department to perform such reconstruction, it was **voted**

to award the contract to A. R. Belli, Inc. for the contract sum based on unit prices at estimated quantities of \$133,989.00.

**October 20, 1969:**

**Voted** to accept the proposal of Brooks-Skinner Division, Van Noorden Co., Inc., Quincy, Mass., dated October 14, 1969, submitted pursuant to Invitation to Bidders advertised October 9, 1969, in The News-Tribune, Waltham, Mass., for construction of a metal building at the Town's sanitary landfill site off Church Street for the sum of \$9,884.00. This was the lowest bid received. Further **voted** to authorize preparation of contract and forwarding to the company for execution in accordance with the provisions of General Laws, Chapter 149, Sections 44A-44L.

**October 28, 1969:**

**Voted** to award renewal contract to Boston Mutual Life Insurance Company for group life and accidental means death and dismemberment insurance for town employees for the year December 1, 1969, to December 1, 1970, under the provisions of Chapter 32B of the General Laws.

**Voted** to approve and sign in triplicate contract between Town of Weston and A. R. Belli, Inc., dated October 16, 1969, for reconstruction of a portion of Wellesley Street. The contract was accordingly signed.

**November 18, 1969:**

**Voted** to approve and sign contract in triplicate between Town of Weston and Massachusetts Hospital Service, Inc. and Massachusetts Medical Service (Blue Cross-Blue Shield) for provision of benefits to members of Town of Weston's group hospital, medical and surgical insurance plan for the year December 1, 1969, to December 1, 1970, under the provisions of Chapter 32B of the General Laws. The contract was accordingly signed.

**Voted** to approve and sign and signed accordingly two Memorandums of Agreement between Town of Weston and Department of Public Works applying 1968 and 1969 allotments of Chapter 90 construction funds in the amounts of \$12,800 and \$14,800 respectively to the reconstruction of a portion of Wellesley Street.

**Voted** to award contract for alterations to space in the Town Hall to Pond Construction Co., Inc., of Melrose, Mass., the low bidder pursuant to bidding in accordance with the provisions of General Laws, Chapter 149, Section 44A-44L.

**Further voted** to accept alternate No. 1, a deduction of \$850.00 from the total bid of \$20,850. The contract sum was \$20,000. Further **voted** to authorize preparation of contract and forwarding to company for execution.

**November 25, 1969:**

**Voted** to classify the following municipal officers and employees under the provisions of General Laws, Chapter 268-A (so-called "conflict of interest" law) as "special municipal employees."

**Members of:**

Elementary School Remodeling Committee  
Regional Refuse Disposal Planning Committee  
School Committee  
Vocational Regional School District Planning Committee

**December 1, 1969:**

**Voted** to adopt and sign a warrant for a special town meeting to be held on December 15, 1969, and that attested copies thereof be posted at the Town Hall, at the Kendal Green railroad station and on the town bulletin board at the north entrance of the Weston High School on Wellesley Street. The warrant was signed accordingly.

**Voted** to award contract to J. J. O'Brien & Sons, Inc. of Waltham, Mass. for construction of footway and bicycle path and sidewalk along and in Conant Road for the sum of \$23,530.00. This was the lowest bid received on November 4, 1969, pursuant to Invitations to Bidders.

**December 16, 1969:**

**Voted** to approve action of the Chief of Fire Department in permitting withdrawal of proposal by Hahn Fire Apparatus Company for furnishing pumper to Weston Fire Department, the company not being in a position to comply with specifications of the equipment required.

**Further voted** to approve the action of the Chief of Fire Department in accepting the proposal of Peter Pirsch & Sons Co., of Kenosha, Wisconsin, dated December 1, 1969, submitted pursuant to notice to bidders advertised in The News-Tribune, Waltham, Mass., November 7, 1969, for furnishing, in accordance with Notice to Bidders, Instructions, Specifications and Proposal form, one 750 gallons per minute rated fire pumper for the sum of \$23,365.00.

**December 30, 1969:**

**Voted** under the authority of General Laws, Chapter 51, Section 30, to relieve the Registrars of Voters from the requirement of holding sessions for registration in both precinct 1 and precinct 2 prior to the annual town election.
